

Report

5 Day FDP cum Training Program On

“ENVIRONMENT, WATER AND DISASTER RISK REDUCTION”

13-17th July, 2020

Jointly Organized

By

**National Institute of Disaster Management
Ministry of Home Affairs, Govt. of India
A-Wing, 4th Floor, NDCC-II Building,
Jai Singh Road, New Delhi – 110 001
www.nidm.gov.in**

&

**School Of Basic Sciences & Research, School Of Agriculture
Sharda University
32-34, Knowledge Park-III
Greater NOIDA- 201306, Uttar Pradesh**

INTRODUCTION

Our environment is constantly changing. However, as our environment changes, so does the need to become increasingly aware of the problems that surround it. With a massive influx of natural disasters, warming and cooling periods, different types of weather patterns and much more, people need to be aware of what types of environmental problems our planet is facing.

Only 3% of the world's water is fresh water, and two-thirds of that is tucked away in frozen glaciers or otherwise unavailable for our use. As a result, some 1.1 billion people worldwide lack access to water, and a total of 2.7 billion find water scarce for at least one month of the year. Thus 1/4th of humanity faces a looming water crisis, including the prospect of running out of water, which may seem inconceivable when 70% of the Earth's surface is water. Nevertheless up to 80% of available surface and groundwater is being used every year and water demand globally is projected to increase by 55% by 2050.

Water shortages may be caused by climate change, such as altered weather patterns including droughts or floods, increased pollution, and increased human demand and overuse of water. Water scarcity is being driven by two converging phenomena: growing freshwater use and depletion of usable freshwater resources. Water crisis in India affects nearly 600 million people each year. In addition to affecting the huge rural and urban population, the water scarcity in India also extensively affects the ecosystem and agriculture.

Currently the country is facing COVID-19 induced challenges. These are extraordinary times and by holding such programmes, the process of knowledge gathering, sharing of information and training, keeps getting due momentum. It also sensitizes the participants/delegates about the due importance about Disaster Risk Reduction (DRR).

Keeping this in view, Sharda University, NOIDA jointly organized with NIDM a five day Faculty Development Program (FDP) cum Training workshop on “Environment, Water and Disaster Risk Reduction” to disseminate information with respect to water security issues and related disasters and also create a vast and multi-disciplinary understanding of the issues in this regards.

AIM OF THE FDP CUM TRAINING WORKSHOP

The main outcome of this programme was knowledge up gradation of Faculty Community of Educational Institutes with respect to Water Crisis, Related Disasters and DRR measures in this regards, sharing of informational updates with respect to how the

DRR measures can and need to be mainstreamed with developmental policy/plans and most importantly bringing in the continuity of propagating the idea of education and delivery during the tough times of COVID 19.

OBJECTIVES

The key objectives were:

- **Understanding the Water Crisis, Water Security Issues and Related DRR Practices.**
- **Comprehension about existing schemes, projects, mechanisms and the participatory approaches to meet the impending water related disasters.**
- **Knowledge of Technologies available and Research Development processes being carried on to meet the needs of community.**
- **Discuss the current challenges and gaps in recent interventions for water related DRR.**

TARGET GROUP

The Target Audience for this programme was Faculties, Researchers, Educators of Universities, Colleges, and Educational Institutes. This may also include research scholars, academicians, middle and senior level government officers of line departments like Revenue, DM, Agriculture, Climate Change and Forests, Animal Husbandry, Police, Municipality, Water Management, PWD as well as representatives from Private Sectors/NGOs, etc.

METHODOLOGY

Lectures, Power point presentations, video films & discussions.

SUMMARY OF DAY 1

INAUGURAL SESSION

The 5 day Faculty Development Programme cum Training Workshop on, “Environment, Water and Disaster Risk Reduction”, jointly organized by NIDM, New Delhi and the Sharda University, NCR, Delhi, started with flourishing colours on 13th July, 2020 at 1000 Hrs with its Inaugural Session. The programme had a gathering of 300 zoom participants (maximum capacity) as well as 883 live participants through Sharda University Youtube Live Streaming.

Shri Ahish Kumar Panda, Programme Coordinator, NIDM, set the tone of the Programme and officially welcomed the Guest of Honours, the Patrons of the Programme, Prof. Sibaram Khara, Vice Chancellor, Sharda University and Major General, Shri Manoj Kumar Bindal, Executive Director, NIDM, alongwith Programme Chairs, Prof. H. S. Gaur and Prof. Anil K. Gupta as well as all distinguished speakers, delegates, participants in the programme. Ms. Abhilasha, Asstt. Professor, Sharda University, co-hosted the Inaugural session.

Prof. Sibaram Khara, Vice Chancellor, Sharda University, in his inaugural speech, spoke in details about different components of environment and how anthropogenic activities are impacting the roots of environment, thereby risking the very existence of humankind. He emphasized upon ever increasing population and related developmental activities for being the reason for existing water crisis in our country. He mentioned several disasters that we witness quite often in coastal areas viz. cyclones, tsunamis and floods etc. He categorically spelt out the need of the hour to be cautious, vigilant and proactive to deal with water scarcity and related societal-economical and health issues in times to come. He wished grand success to the programme and wished that not only fruitful deliberations will take place in the 5 day programme, but also that some viable solutions/recommendations will come out through deliberations which will be good for the policy makers to ponder upon to safeguard our future.

Major General Manoj K Bindal, Executive Director, National Institute of Disaster Management, New Delhi gave a thought provoking and encouraging inaugural address to the audience. He mentioned that Covid19 has given the Government, Society and Community an opportunity to retrospect our development strategies and definition of growth and development. Citing the connections of due and efficient water management to the ever increasing water related disasters, he stated that any further delay in realizing the potential of neglect of this sector will be detrimental to human development. He informed that situations in our own country have sometimes gone so worse that we have been

required to run water trains for some areas to provide potable water to need population. All water related management practices need to be mainstreamed with our developmental schemes and projects. He emphasized upon rain water harvesting and other measures of water harvesting to be made mandatory in government schemes. He wished all the participants and people associated with this programme best of luck and encouraged all to ask relevant and burning questions to the esteemed speakers so that new pathways can be identified to work upon and thus India moves towards a safe water regime in near future.

Prof. HS Gaur, Dean, School of Basic Sciences and Research and School of Agriculture, Sharda University, and the Programme Chair, delivered his welcome address to the gathering. He mentioned several water related disasters, their trigger mechanisms and the stressors on water regime and resources. He emphasized that we need to respect our traditional wisdom along with scientific innovations and technologies to deal with existing water crisis in our country. He expressed great satisfaction with the kind of background of Speakers and Delegate Participants that could be associated with such timely and important programme. He wished the programme great success and expected that there would be many more such future collaborations of the Sharda University with the NIDM.

Prof. Anil K Gupta, Head, ECDRM Division, National Institute of Disaster Management, New Delhi and the Programme Chair, gave his context setting talk about the importance of water sector in overall development of mankind and why any further neglect to this sector will only shorten the existence of mankind on planet earth. Citing several water abundance disasters like floods, cyclones, cloud bursts and water deficient disasters like drought, famine, heat waves, he said that changing environment and its detrimental impact on human society is lessening the limited existence period left for all of us. He emphasized upon finding quick solutions to water related problems and also a fine balance between new definitions of development as well as conservation of our ecosystems which also includes the water resources, which are at threatening levels of existence.

TECHNICAL SESSION

After the Inaugural Session, the Technical Sessions got started with the first talk from Sh. Ashish Kumar Panda, Faculty, ECDRM Division, NIDM, New Delhi. As per mandate of the Government of India and NIDM being the apex training and capacity building Institute for aspects of Disaster Management in our country, he gave a brief presentation on, “Covid 19 and India” with respect to the status of Covid 19 in India as well as importance of lockdown measures, its impact on our environment and few Dos and Dents, as prescribed in several Ministry of Health guidelines, issued from time to time in this regard. Later on, he gave his talk on “Water Security in India”. He explained current

water scenario across the Globe as well as in India through several reports and eye opening data/infograms. He further elaborated upon formation of new Jal Shakti Ministry, its mandate, the sorry state of our rivers like Ganga, Yamuna and the lessons we need to learn from big Dams like Tehri etc. He also highlighted the importance of how schemes on Rain Water Harvesting can do wonders with safeguarding the water future of India and how, Resident Welfare Associations and Educational Institutes can play big lead roles in this regard. He cited few good success stories of Singapore, Melbourne and Denmark, which can be replicated in our country in a way so that the basic needs of the community to have access to reliable water sources with respect to its availability and purity are not compromised. He explained the groundwater contamination across various Districts in several States/UTs in our country, Water security framework, India Water Portal 3.0 and proposed certain way forwards in this regards. He concluded saying that there is a need for paradigm shift in water management in our country so that we can dream and realize a water safe society in times to come.

The 2nd Talk of the Day was from Prof. Jugal Kishore, Head, Department of Community Medicine, Safdarjung Hospital, New Delhi on, “Water and Community Health”. He spoke in details about the importance of water on human health viz saliva creations, regulation of body temperature, protection of tissue, spinal cord, joints, maximizing physical performance etc. It helps fights various kinds of illnesses as well. He informed about the Indian water crisis situation, flood prone states and public health consequences due to it, ranging from injuries, death, social reactions, communicable diseases, and other chronic illness, sanitation problems, damage to infrastructure etc. He also told about the health problems in post-disaster phase viz disposal of dead bodies, snake bites, STDs, measles, skin and eye infection, cholera, bacterial dysentery, hepatitis, malaria, dengue, etc. Open defecation and related health issues were also discussed. He discussed further various biological agents, water quality issues and basic tips of hand washing, initiatives to ensure sustainable development via various existing government schemes etc. He concluded by saying that in a water safe India, it should be made mandatory to provide clean drinking water to the students, children at Schools, Anaganwadi, PRI offices and Public Buildings etc.

The 3rd and Final talk of the day was from Dr Suraj Bhan Sevda, Assistant Professor, Department of Biotechnology, National Institute of Technology, Warangal on, “Green energy generation in India: present scenario and future prospects”. He detailed about the Types of Energy - Primary and Secondary energy, Commercial and non-commercial energy and Non-renewable and Renewable energy, citing several examples in this regard. He spoke about the Global primary energy reserves with respect to Coal, Oil and Gas and their leading resource countries, the Energy distribution between developed (60%) and developing countries (40%), Indian energy scenario as well as the Total energy

reserves in India as on 31.3.2018. He also informed that the total potential for renewable power generation in India has been estimated around 1096081MW. He concluded his talk by saying that energy consumption scenario is increasing day by day, globally and that the developed nations are responsible for 60% of the global energy consumption.

At the end of every talk, few relevant questions were taken and speakers answered to the audience. The day ended with vote of thanks to the Patrons, Programme Chairs, Distinguished Speakers, Delegates and Programme Managing Committee of both NIDM and Sharda University.

SUMMARY OF DAY 2

Dr. Kanupriya, Sharda University, welcomed the esteemed speakers, distinguished delegates and participants on the second day of the 5 day FDP cum Training Workshop.

The first talk of the day was delivered by Ms. Shilky, Young Scientist and Professional, National Institute of Disaster Management, New Delhi on, “Flood Disaster Mitigation and Management”, wherein she spoke in details about Floods being recurrent phenomenon causing huge loss to lives, livelihood systems, property, infrastructure and public utilities etc. She discussed main reasons for floods viz Excessive precipitation, Natural processes (cyclones, snowmelt, avalanches), Obstructions to water flow in tributaries & catchment areas, Poor management / maintenance of flood control structures(levees & dams), Erosion of river banks during monsoon etc. She also mentioned anthropogenic causes associated with climate change and its connection with ever increasing floods. Types of floods, area getting inundated on yearly basis, structural and non-structural measures of flood disaster mitigation and specifically case study of Kerala Floods, 2018 were other highlights of her talk. She concluded by giving due importance to flood resilient infrastructure and combatting climate change.

The second talk of the day was from Prof. Man Singh, Director, Water Technology Centre, Indian Agricultural Research Institute, New Delhi on, “Understanding floods: environmental consequences and landscape management”. He explained floods right from basic science and socio-economic factors associated to it, to various scientific and policy level innovations and ideas which can lead us to flood free society and culture. He insisted upon understanding the behavior of rainfall, different from places to places, need for national water grid, river interlinking projects, harvesting water to the maximum extent possible (citing China) and making our farmers independent of Monsoons and Climate Change. Had there been an economic value to the flood water, people would not let it flow and go wasted like this. Let us move from ‘everything free’ culture, by suitably tariffing electricity, water, irrigation etc. If we give guarantee to the local community of yearlong

availability of fresh water, water for domestic use, for irrigation, they will work hard and buy it. He emphasized upon making drainage highways and inter circulation of water across country so that salinity levels can be averaged and productions can be maximized. He concluded by saying that there is need for national level water infra-transformation.

The third and last talk of the day was from Dr. Awdhesh Kumar, Asstt. Professor, Invertis University, Bareilly, UP on, “Symbiotic DRR practices for abatement of Global Water Crisis”. He spoke in details about the Atmosphere, Lithosphere, Hydrosphere, thereby highlighting the importance of water in our ecosystem. Global water availability and current water crisis were corroborated in his talk through various international and national reports and studies. He informed about the CRISIS TRIO of management, economic and understanding aspects with respect to Global Water Crisis. He emphasized upon mainstreaming disaster risk reduction measures into secure water management and conservation schemes and policies (Symbiosis) in our country. He informed that Earth has become an overcrowded vehicle and annual resource requirement has been increasing. He concluded by saying that as nearly 6 SDGs talk about importance of water there is a need for prioritizing sustainable goals which involves both indigenous and traditional knowledge as well as successful best technological practices being practiced across the globe.

The esteemed speakers also responded to various questions, posed to them, after their talks. The programme was successful with full zoom participation of 300 alongwith more than 1200 youtube live streaming participation.

SUMMARY OF DAY 3

Day 3 of the proceedings started by welcoming all the esteemed speakers, distinguished delegates/participants.

The first talk of the day was delivered by Dr. Abhilasha Singh Mathuriya, Associate Professor and Head, Life Sciences, School of Basic Sciences and Research, Sharda University on, “Bioelectrochemical systems for community wastewater treatment”. She spoke in details about various systems for community wastewater treatment and specially the Microbial fuel cell (MFC) technology, related low cost waste water treatment reactor and advantages of considering MFCs for wastewater treatment. Scale up issues of Microbial fuel cell, Auto Circulate Bio-Electrochemical Reactor (AutoCirBER), Multi Criteria Microbial Fuel Cell (MCMFC) and Trickling Bio-Electrochemical Reactor (TrickBER) were also discussed by her through beautiful schematic diagrams. Easy for maintenance, low cost association and being a way to utilize wastewater, such schemes of things should be implemented across the country. She informed the audience that not only their University but some chosen nearby villages are working on setting up TrickBER and

shortly the achievements will be documented for the masses so that such successful initiatives could be replicated elsewhere in India.

Talk 2 of the day was from Prof. Bhupinder Singh, Head, & Principal Scientist, Centre for Environment Science and Climate Resilient Agriculture, Indian Agricultural Research Institute, New Delhi on, “Challenges and Preparedness to Manage Climate Change and Radiological Emergencies”. He discussed issues of current environmental challenges, need for sustainable agricultural productivity under changing climate, trend of increasing CO₂ and related temperature rise, future scenarios of this climate change for the agriculture sector etc. Role of CO₂ fertilization, differently on different plant species, impact of climate change on soil quality, resource conserving technologies for mitigation of GHG emissions and biological effects of ionizing radiations etc. were other salient features of his talk. He also informed the audience about various aspects of uses of Radio Isotopes in the field of Food and Agriculture sector with respect to growth optimization, conservation and safety from various diseases etc. He also discussed about adapting agriculture to climate change strategies for a national action plan, potential and cost of green house gas mitigation conservation agriculture and organic farming, water saving technologies mitigates CO₂ emission and problems of nuclear pollution in the environment. He concluded by saying that technology, best practices and various mechanisms related to radiological emergencies are existing in our country as for as Agriculture sector is concerned and they need to be further supported and propagated.

Dr. Ravinder Kaur, Director, Soil & Water Conservation, IARI, New Delhi gave the 3rd and final talk of the day on, “Sustainable Wastewater Treatment and its Use in Agriculture”. She spoke in details about national challenges with respect to waste water treatment in India, recycle and Reuse of treated waste water, conventional waste water treatment methods, environment friendly sewage water treatment facility etc. She said that the conventional methods of water treatment are not sustainable as they use high energy, high skilled labour and very costly and that they have developed an environmental friendly sewage water treatment facility. It showed significant reduction in food metal and pathogen contamination along with signs of pathogen/metal risk proof aquaculture with increase in productivity. Such systems also accrue other benefits as they produce harvestable biomass nearly 30 tonnes per 1.4 hectare treatment facility. She concluded by saying that such new cost effective and time tested scientific innovations should be replicated elsewhere as it is not only ecologically beneficial but also has the capacity of providing livelihood as well as economic surpluses.

SUMMARY OF DAY 4

The first talk of the day was from Prof. D.K. Singh, Principal Scientist, Water Technology Centre, Indian Council of Agricultural Research-IARI, New Delhi on, “Impact of droughts on agriculture and its amelioration”. He spoke in details about drought and its implications on agriculture, types of droughts (Meteorological, hydrological etc.). He further discussed agriculture droughts, its impact on loss of agricultural yields, use of drought maps by policy makers for better planning of drought mitigation and management, data generation and easy access, need for drought monitoring, water management and early warning systems in this regard. He emphasized upon Esrael model to be replicated in India because of similarities of arid conditions at some places in our country. He concluded by saying that Drought amelioration through improves on-farm infrastructure and demand management and sub-surface dykes for sub-surface water harvesting

The Second talk of the day was from Prof. Ravi Kant Singh, Director Research, Amity University, Chhatisgarh on, “Creating Wealth from Wastes: A Biotechnologist Paradigm”. He talked about waste generation in india, its types, solid waste management techniques, recyle/reuse of wastes, creating wealth from waste, 5 R policy of utilizing waste (reduce, reuse, recycle, replacement and recovery) etc. He further discussed about management of liquid waste from starch industries, dairy industries, wastewater from fruit and beverage industry, distillery waste, slaughterhouse waste etc.He also presented case study from Palm Oil mill, leather industry, abbatoir waste, Bagasse and mixed municipal waste etc. He emphasized the need of patents in current age and need for protection of knowledge. He concluded by highlighting that waste should be looked as potential raw materials for producing a variety of value added chemical and energy and that developments in bioscience along with principles of biotechnology and other engineering disciplines should be utilized to harness their potential.

The third and final talk of the day was from Prof. HS Gaur, Dean, School of Basic Sciences and Research, Sharda University, India on, “Impact of climate change on pests and pathogens of crops and their management”. He spoke in details about areas/issues like complexity of ecosystems, our position in world food basket, increasing population, Loss of crops due to pests, Nematodes in soil, symptoms of their damages, various facets of climate change and its impact on Agriculture, climate change and locust storms, structure and function of agro-eco systems, invasive nature of plant parasite nematodes, change in plant growth patterns, nematode biodiversity and parasitism, prediction models and use of Nematodes as biological models, Adapting behaviour of nematodes and possible climate change impacts on insects and pathogen, environment, host triangle and Integrated Pest Mgmt System etc. He concluded by saying that It is important to keep ahead of undesirable

pests and pathogens adaptations; hence we must carefully consider climate change for planning research and development efforts for pest and disease management. Need of the hour is to assess the efficacy of various pest management technologies under diverse environmental conditions, and develop appropriate strategies for pest and disease management to mitigate the effects of climate change.

SUMMARY OF DAY 5

The programme started at 0930 Hrs on the 5th day, with the first talk from Dr. Suman, Assistant Professor, Department of Environment Studies, School of Basic Sciences and Research, Sharda University on, “Impact of dust storm on environment.” She spoke in details about Dust Storms especially prevalent in northern India side, Dust storm life cycle, Dust outflow and seasonality, its impact on climate, environment and the society etc. She also elaborated upon their formation, types, health implications (respiratory diseases), their impact upon crops, oceans, agriculture, economy and the environment, its association with the climate change etc. She concluded by discussing some case studies of Alaska, Aral sea, Hawaeeii, Chad, western Africa, southern California, and India and encouraged the academicians to go for research activities in this field with suitable financial and technical support through the Government-Academia collaborations.

The 2nd talk of the day was from Dr Jayesh M. Sonawane, Senior Postdoctoral researcher, University of Toronto, Canada on, “Microbial Fuel Cells for power generation and wastewater treatment”. He spoke in details about the increasing demand for power in current scenarios, Bio-electro-chemical systems, energy demand gaps can be fulfilled by using Microbial Fuel Cells (MFC), possibility at large scale power generation from wastewater treatment plant. He explained the technical details of how MFC works and that MFC research is still in progress to make the process cheaper. He concluded by emphasizing on scaling up of electrochemical waste water treatment process and necessity of multi-phase Bio-electro-chemical system in a country like India with ever increasing population and power demands.

The 3rd talk of the day was from Dr. Angana Sarkar, Assistant Professor, Biotechnology and Medical Engineering, National Institute of Technology, Rourkela on, “Bioremediation strategies for arsenic contaminated water”. She covered a wide range of global scenario of Arsenic contamination including status in India, complexities in realizing the contamination levels of fresh water, severe health implications on human health including cancer, responsible Geogenic and Anthropogenic reasons in origin etc. She also informed that As^{3+} is the most toxic and mobile form of Arsenic, microbes playing a key role in mobilization/removal of Arsenic in subsurface environment and bioremediation strategies (using bacteria) to counter Arsenic containment etc. She concluded by suggesting

a two-step approach for ground water arsenic bioremediation for replication and further research in our country.

The 4th and the final talk of the day was from Prof. Anil K Gupta, Head, ECDRM Division, NIDM, New Delhi on, “Water- The Living Entity: Applying the Spirituality and Middle Path (BUDDHA) for Resilience”. This talk was an amalgamation of science with spirituality (living ways of life). He spoke about role of water conservation in disaster resilience, connections of most of the disasters with water, issues of urban water governance, need for improvement in the current disaster management policies and strategies by mainstreaming water related aspects into it etc. He further said that we need to protect livelihood and not just life, to protect ecosystem services and ecosystem based solutions, to learn the importance of community participation in water conservation, to put some cost on water in order to make it valuable etc. He concluded by citing examples of wet lands, abundance and scarcity of water in Chennai City on subsequent years (2014-15), geological framework of world regarding climate change and that it is the duty of one and all to contribute in Disaster Risk Reduction and Management efforts.

All the esteemed speakers answered to various questions put to them as queries by the learned audience, at the end of their respective talks, efficiently and to the satisfaction of everybody. The 5 day programme thus ended very successfully.

VALEDICTION SESSION

Shri Ashish Kumar Panda, Consultant and Faculty Member, NIDM and the Programme Coordinator initiated the Valedictory Session by informing the gathering that the programme could cover a wide range of subject topics related to Changing Environment, Water Crisis and associated Disaster Risk Reduction measures in various sectors, Droughts, Floods, Pest Attacks, Waste Management and new pathways for a water safe regime. Global scenarios along with comparisons with Indian standards, gap areas and likely measures of how to change the current situation for betterment etc. through a rainbow of 16 diverse Talks and Presentations, spread over 5 days during 13-17th July, 2020.

Dr. Abhilasha Singh, Asstt. Professor, Sharda University and the Programme Coordinator, informed the gathering about the wonderful participation on part of esteemed delegates and participants, including scientists, faculty, research scholars, industry person & students, through their queries on chat box and 5 whatsapp groups (for more than 1000 registrations). She also informed that on a daily basis, this programme was attended by 300 regular attendees on zoom platform and more than 1000+ participants via

Youtube Live Streaming. She assured the participants that their left over queries will be sent to the respective speaker for direct answer on that.

Hon'ble Patron, Major General, Shri Manoj Kumar Bindal, ED, NIDM, gave his valedictory address to the audience. He used very kind, encouraging words of appreciation for all the esteemed speakers, delegates/participants as well as the organizing committee for successfully holding such a wonderful 5 day FDP cum Training Workshop. He encouraged the academicians and research scholars to come forward with innovative ideas of research that are not only relevant but also cost effective so that we can move towards a safe and adequate water regime in our country. He wished everybody present a safe and successful future and hoped that NIDM and Sharda University will have many more such fruitful endeavours.

Prof. H.S.P.Rao, Dean, Research, Sharda University, congratulated the entire joint team of NIDM and Sharda University for hosting such a wonderful programme spanned over 5 days. He detailed about various academic and research activities going on in the Sharda University and invited academicians and researchers to join hands with the Sharda University for mutual benefits. He further mentioned that the important talks/lectures and questions/answers that have taken place in this successful programme, can be documented for future reference and follow up and that University Journals will be happy to collaborate in this regard. He wish everybody success and happiness in life.

Programme Chair, Prof. H. S. Gaur, Sharda University, gave his concluding remarks by showing happiness and satisfaction over the vast reach of this programme. He said, that overall it was a participation of more than 1500 participants across the country and even globally, through various platforms. He lauded the efforts of the Programme Coordinators and the Organizing Team, in a synergy mode, so that the programme could reach to a sweet and successful end. He expected that takeaways from such programmes should not go wasted and that many such joint efforts and collaborations will definitely lead us to find ways and means for finding so many water related problems and questions.

Programme Chair, Prof. Anil K. Gupta, NIDM, in his concluding remarks, was very happy with the success of the programme and mentioned that, every topic of talk was relevant and covered wide range of water related issues that could ever be covered in a 5 days programme. He said that Disaster Risk Reduction is a multi-stake holder and multi hazard centric subject and cannot taught in a 5 days programme, however, sensitization to the academic and researcher circle, the main objective of this programme, has been greatly achieved. Every participant is now a disaster champion and will work hard in his respect fields of interest towards a sustainable development goal of disaster resilient society. He

wished all the delegates and participants a disaster safe future and congratulated once again the entire team of NIDM and Sharda University for this successful collaboration.

VOTE OF THANKS

Programme Coordinators, Shri Ashish Kumar Panda, Consultant and Faculty Member, NIDM and Dr. Abhilasha Singh, Asstt. Professor, Sharda University, jointly proposed a Vote of Thanks for the programme in the end.

They thanked the Programme Patrons, Prof. Sibaram Khara ji, VC, Sharda University and Major General, Shri Manoj Kumar Bindal ji, ED, NIDM, for their vision and continuous encouragement. They thanked Programme Chairs, Prof. Gaur and Prof. Gupta ji for their strong support, guidance and continuous monitoring in making this programme worthwhile and successful. They also thanked Prof. H.S.P.Rao, Dean, Research, Sharda University for his presence and encouraging words to the organizing team for successful holding this programme. Finally, they thanked all the esteemed speakers of this programme, distinguished delegates/participants, the NIDM-Sharda University Organizing Committee, the IT team of Sharda University etc. for this wonderful collaborative effort.

The programme ended thus successfully, by wishing, each and everybody success, peace and happiness in their lives and times.

ORGANIZING TEAM

PATRONS

Major General Shri Manoj K Bindal
Executive Director, National Institute of Disaster Management, New Delhi

Dr. Sibaram Khara
Vice Chancellor, Sharda University, India

PROGRAMME CHAIRS

Prof. Anil K Gupta
Head, ECDRM Division, National Institute of Disaster Management, New Delhi

Prof. HS Gaur
Dean, School of Basic Sciences and Research and School of Agriculture, Sharda University

PROGRAMME COORDINATORS

Sh. Ashish Kumar Panda
Consultant and Faculty Member, ECDRM Division, NIDM, New Delhi

Dr. Abhilasha Singh Mathuriya
Head, Life Sciences, Sharda University

CO-COORDINATORS

Ms. Shilky, Young Profession, NIDM

Dr. Piyush K Gupta & Dr. Kanu Priya, Sharda University

ORGANIZING COMMITTEE, Sharda University

Prof. P K Singh, Dr. Soumya Pandit, Dr. Mohit Sahni, Dr. Munendra Singh, Dr. Sunny Dholpuria, Dr. Sharad Agarwal, Ms. Sweety, Ms. Rashi Chaudhary

LIST OF SPEAKERS

- 1. Prof. Jugal Kishore**
Head, Department of Community Medicine, Safdarjung Hospital, New Delhi
- 2. Prof. HS Gaur,**
Dean, School of Basic Sciences and Research, and School of Agriculture,
Sharda University, India,
- 3. Prof. Bhupinder Singh**
Head, & Principal Scientist, Centre for Environment Science and Climate Resilient
Agriculture, Indian Agricultural Research Institute, New Delhi
- 4. Prof. Man Singh**
Director, Water Technology Centre, Indian Agricultural Research Institute, Delhi
- 5. Prof. Anil K Gupta**
Head, ECDRM Division, National Institute of Disaster Management, New Delhi
- 6. Prof. Ravi Kant Singh**
Director Research, Amity University, Raipur, Chhatisgarh
- 7. Dr. Ravinder Kaur**
Director, Soil & Water Conservation, Indian Agricultural Research Institute, Delhi
- 8. Prof. D.K. Singh**
Principal Scientist, Water Technology Centre, ICAR- Indian Agricultural Research
Institute, New Delhi
- 9. Sh. Ashish Kumar Panda,**
Consultant & Faculty Member, ECDRM Division, NIDM, New Delhi
- 10. Dr Angana Sarkar**
Assistant Professor, National Institute of Technology, Rourkela.
- 11. Dr Surajbhan Sevda**
Assistant Professor, National Institute of Technology, Warangal.
- 12. Dr A S Mathuriya**
Associate Professor and Head, Life Sciences, School of Basic Sciences and Research,
Sharda University, India
- 13. Dr Jayesh M. Sonawane**
Senior Postdoctoral researcher, University of Toronto, Canada.
- 14. Dr Suman, Assistant Professor**
Department of Environment Studies, School of Basic Sciences and Research,
Sharda University, India
- 15. Dr. Awdhesh Kumar**
Assistant Professor, Invertis University, Bareilly, UP
- 16. Ms. Shilky**
Young Professional, National Institute of Disaster Management, New Delhi

PROGRAMME SCHEDULE

Date & Day	Session 1 (10.00-10.40)	Session 2 (10:40 to 11:20)	Session 3 (11:20 to 12:00)
13.7.2020 Monday	Inaugural Session 10.00-10.30	Sh. Ashish K Panda, Faculty, ECDRM Division, National Institute of Disaster Management, New Delhi Talk: Water Security in India (Covid 19–Present Status, Do's and Don'ts)	Prof. Jugal Kishore, Head, Department of Community Medicine, Safdarjung Hospital, New Delhi Talk: Water and Community Health Dr Suraj Bhan Sevda Assistant Professor, Department of Biotechnology, National Institute of Technology, Warangal Talk: Green energy generation in India: present scenario and future prospects
14.7.2020 Tuesday	Ms. Shilky, Young Professional National Institute of Disaster Management, New Delhi Talk: Flood and its Management	Prof. D.K. Singh, Principal Scientist, Water Technology Centre Indian Council of Agricultural Research- IARI, New Delhi Talk: Impact of droughts on agriculture and its amelioration	Shri Awdhesh Kumar, Invertis University Bareilly, UP Talk: Symbiotic DRR practices for abatement of Global Water Crisis
15.7.2020 Wednesday	Dr A S Mathuriya Associate Professor and Head, Life Sciences, School of Basic Sciences and Research, Sharda University, India Talk: Bioelectrochemical system for community wastewater treatment	Prof. Bhupinder Singh, Head, & Principal Scientist Centre for Environment Science and Climate Resilient Agriculture, Indian Agricultural Research Institute, New Delhi Talk: Challenges and Preparedness to Manage Climate Change and Radiological Emergencies	Dr. Ravinder Kaur, Director, Soil & Water Conservation, IARI, New Delhi Talk: Sustainable Wastewater Treatment and its Use in Agriculture Dr Suman, Assistant Professor, Department of Environment Studies, School of Basic Sciences and Research, Sharda University, India Talk: Storms, its Disasters and management.
16.7.2020 Thursday	Prof. Man Singh Director, Water Technology Centre, Indian Agricultural Research Institute, New Delhi Talk: Impact of Floods on Agriculture and its management	Prof. Ravi Kant Singh, Director Research, Amity University, Chhatisgarh Talk: Creating Wealth from Wastes: A Biotechnologist Paradigm	Prof. HS Gaur, Dean, School of Basic Sciences and Research, Sharda University, India Talk: Impact of climate change on pests and pathogens of crops and their management.
17.7.2020 Friday	Dr Jayesh M. Sonawane, Senior Postdoctoral researcher, University of Toronto, Canada Talk: Microbial Fuel Cells- An option for wastewater treatment	Dr. Angana Sarkar, Assistant Professor, Biotechnology and Medical Engineering, National Institute of Technology, Rourkela. Talk: Bioremediation strategies for arsenic contaminated water	Prof. Anil K Gupta, Head, ECDRM Division, National Institute of Disaster Management, New Delhi Talk: Water- The Living Entity: Applying the Spirituality and Middle Path (BUDDHA) for Resilience Valediction Session (11.30- 12.00) Vote of thanks ASM AP

LIST OF PARTICIPANTS

It was a wonderful participation on part of esteemed delegates and participants, including scientists, faculty, research scholars, industry person & students, through their queries on chat box and 5 whatsapp groups (for more than 1400 registrations). In all, a total of 1366 number of Participants across India and few from outside, attended this programme. As the list is huge, it can not be reproduced here and the same has been annexed to this file as a seprate excel file.

TAKE AWAYS FROM THE PROGRAMME

1.Knowledge dissemination about Changing Environment, its impact on various critical sectors, Water Sector issues and way forwards as well as Disaster Risk Reduction Concepts, amongst academicians, faculties, research scholars, government officials and students;

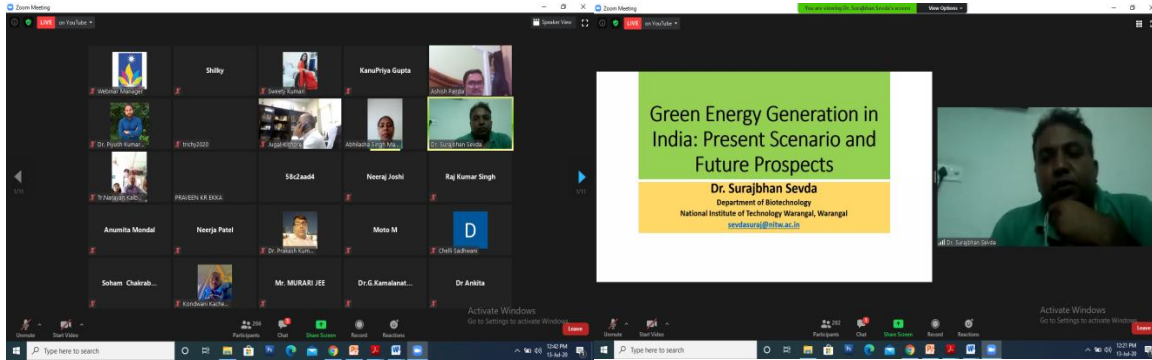

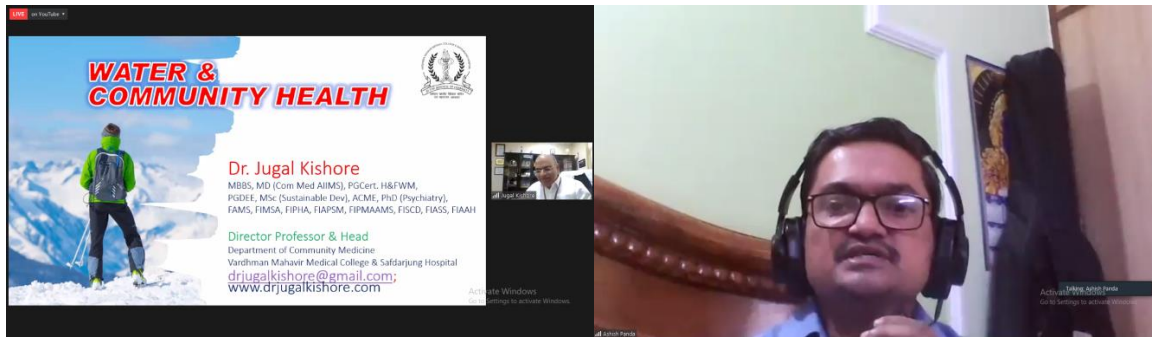

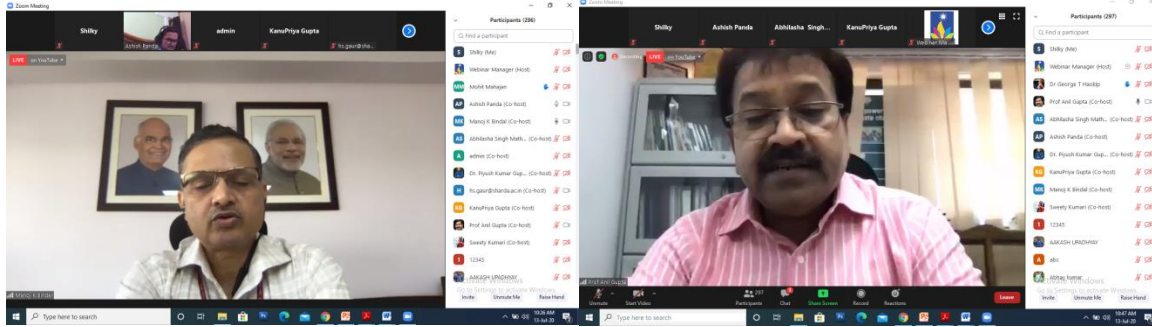

2.Discussion of various cost effective and time tested technologies being used and researched upon in our country with respect to water conservation;

3.Encouragement to faculties, research scholars and students by way of providing various aspects of research areas and cross cutting issues;

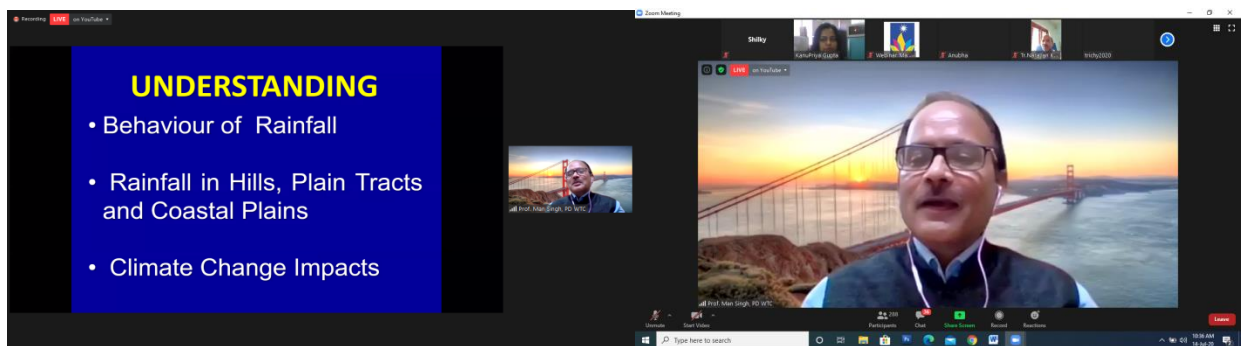

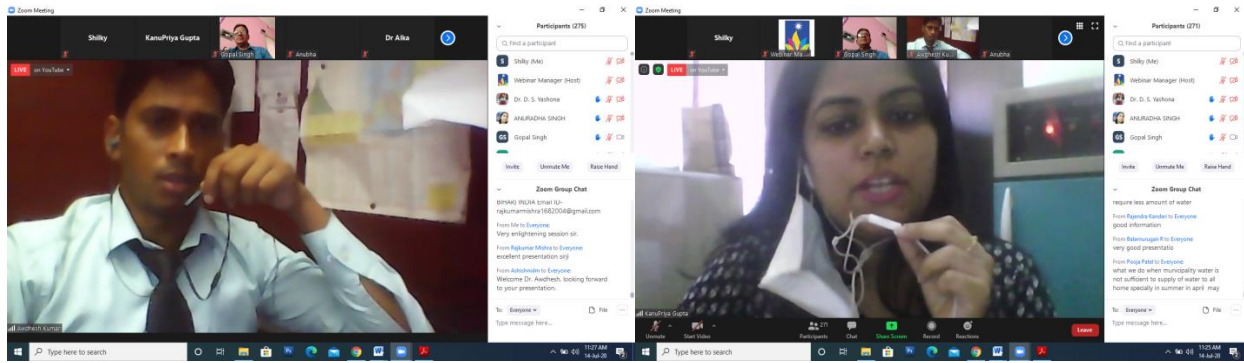

4.Possibilities for various collaborations amongst NIDM, Sharda University, Participating Educational and Government Organization, NGOs and pvt sectors;

PHOTOGRAPHS

Day 1

Day 2

Day 3

A screenshot of a Zoom meeting displaying a slide titled "Estimates of future levels of CO₂ and temperature". The slide includes a table of CO₂ levels and a line graph showing temperature projections.

Year	CO ₂ ppm
2000	369
2010-2015	388-398
2050/2060	463-623
2100	478-1099

Global surface warming (°C)

Future climate is likely to be warmer

Although there is considerable uncertainty about future, all climate models indicate a rising trend in temperature. By 2100 a rise of 1.3 to 4°C is expected. Higher values cannot be ruled out.

ICAR Indian Agricultural Research Institute, New Delhi

Figure 2: Schematic representation of multi-chamber microbial fuel cell (MCMFC)

A screenshot of a Zoom meeting displaying a slide titled "Multi Criteria Microbial Fuel Cell (MCMFC)". The slide lists key features of the technology and includes a photograph of researchers working with a large blue container.

- MCMFC was developed to accomplish water disinfection after its chemical load removal (Mathuriya 2016c).
- It is a two chamber assembly.
- Plurality of anode plates were sealed with main reactor assembly and with separator from sides in alternate manner leaving 1 cm space (Figure 2), creating an arrangement for serpentine flow of water inside the anodic zone.

Pathogen / Metal Risk Proof Aquaculture and High Fish Productivity

~4.0 tons / ha Fish yield with less than 50% feed incorporation

Pathogen and heavy metal loads in Fish-muscle within safe limits

Day 4

Zoom Meeting

Participants: Dinky, hs.gaur@sharda..., KanoPriya Gupta, utma manoor, Raj Kumar Singh

Video Call: Prof. (Dr.) Ravi Kant Singh

Slide Title: **CREATING WEALTH FROM WASTES: A BIOTECHNOLOGIST PARADIGM**

Speaker: **Prof. (Dr.) Ravi Kant Singh**
Director (Research)
Amity University Chhattisgarh, Raipur

Zoom Meeting

Participants: hs.gaur@sharda..., KanoPriya Gupta

Slide Title: **Impact of Droughts on Agriculture and its Amelioration**

Speaker: **D. K. Singh**
Principal Scientist
Water Technology Centre
and
Professor
Division of Agricultural Engineering
ICAR-Indian Agricultural Research Institute
New Delhi-110012

School of Basic Science and Research & School of Agricultural and Food Sciences, Sharda University
FDP, July 16, 2020

Slide Title: **IPM System and its Sub-Systems**
Strengthen Research, Teaching and Extension

Diagram Components:

- I Host Plant Resistance
- II Regulatory Measures
- III Cultural Practices
- IV Biological Control
- V Other Measures
- VI Botanical Pesticides
- VII Chemical Control

Central Element: **IPM**

Day 5

Mobilization/Removal of As:

- Oxidation of arsenopyrite
- Reductive dissolution of As-rich Fe oxides/hydroxides
- Weathering of minerals (nutrient acquisition by bacteria)

Hypotheses of As mobilization

(Islam et al., 2009; Berry et al., 2009; Mallinckrodt et al., 2009; Sutton et al., 2009; Saha et al., 2009)

Bioremediation strategies for arsenic contaminated water

Presented by **Dr. Angana Sarkar**
Department of Biotechnology & Medical Engineering
National Institute of Technology Rourkela

e-FDP cum Workshop entitled "ENVIRONMENT, WATER AND DISASTER RISK REDUCTION"

MICROBIAL FUEL CELLS FOR POWER GENERATION AND WASTEWATER TREATMENT

Jayesh Manohar Sonawane
Department of Chemical Engineering & Applied Chemistry
University of Toronto, Canada

KanuPriya Gupta

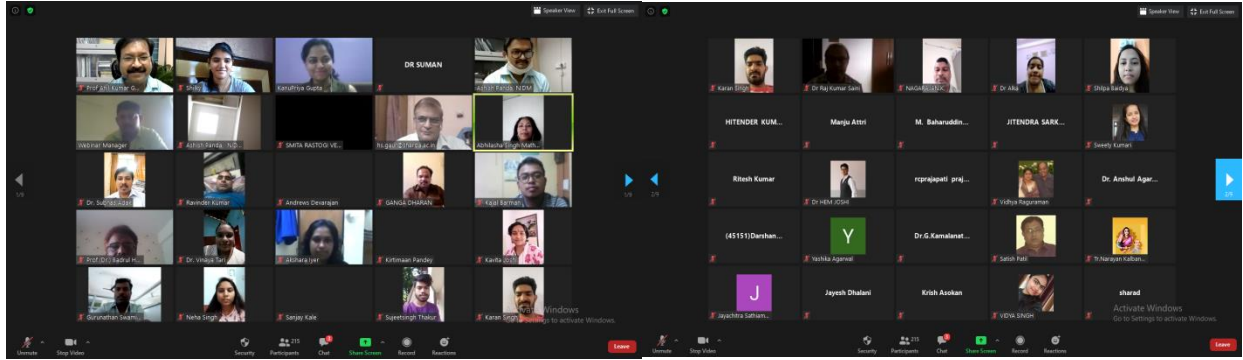

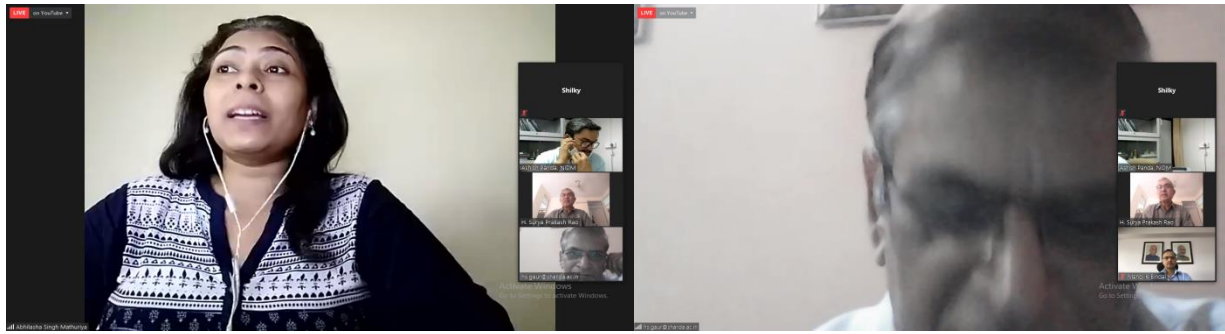

Participants: Shilpy, Dr. Angana Sarkar, KanuPriya Gupta, Ashish Panda, N...

Participants: Shilpy, K. Surya Prakash Rao, KanuPriya Gupta

WHAT ARE NATURAL CALAMITIES?

A natural disaster is the effect of a natural hazard (e.g. flood, tornado, hurricane, volcanic eruption, earthquake, or landslide) that affects the environment, and leads to financial, environmental and/or human losses.

Participants: NAGARAJAN.K, Kama Datta, Manju Atri, M. Baharuddin..., Dr. Anshul Agar..., (4511)Darshan..., Dr. G. Kamalnat..., Satish Patel, Dr. Anshul Agar..., (4511)Darshan..., Dr. G. Kamalnat..., Satish Patel, Dr. Anshul Agar..., (4511)Darshan...

SCHOOL OF BASIC SCIENCES & RESEARCH, SCHOOL OF AGRICULTURE

&

NATIONAL INSTITUTE OF DISASTER MANAGEMENT, NEW DELHI

Jointly Organize

5-days e-Faculty Development Program cum Training Workshop on

ENVIRONMENT, WATER, AND DISASTER RISK REDUCTION

13th -17th July, 2020

PROGRAM COORDINATORS:

Dr. Abhilasha Singh Mathuriya
Head, Life Sciences,
Sharda University

Sh. Ashish Kumar Panda
Consultant and Faculty, ECDRM Division,
NIDM, New Delhi

Sharda University, NCR, India and National Institute of Disaster Management (NIDM), Ministry of Home Affairs, New Delhi, India, are planning to organize the e-Faculty Development Program cum Training workshop entitled "Environment, Water and Disaster Risk Reduction" from 13th -17th July, 2020 for faculty, research scholars, industry person and students.

The objective of this FDP-TW is to nurture the research aptitude and competency development of the young Faculty Members/Research Scholars/MTech students, either doing research or planning to undertake research work under the domains of waste to energy.

This FDP-TW is serving to be a great platform for faculty and researchers and students to upgrade their knowledge in the area of recent emerging technologies. In this FDP, there will be technical sessions on the following topics, by experts from Academia and Industry:-

THEME OF FDP-W

- Water Pollution
- Natural disasters
- Disaster risk management
- Environmental Pollution and control
- Disaster management in agriculture

HIGHLIGHTS OF FDP-W

- Platform for interaction with scientists, researchers, and industry experts across the globe
- Live streaming on Youtube
- E-Certificates to registered participants with 80% attendance after filling the feedback form
- No registration fees

REQUIREMENT FOR FDP-W

- Attendees must have a computer system with good internet connection
- Computer system configuration window os 7/8/10, 64 bit processor, Minimum 2GB/4GB RAM

The e-FDP-TW will have an expected audience of about 500, including scientists, faculty, research scholars, industry person & students. This e-FDP-TW will serve a great platform for faculty and researchers and students to upgrade their knowledge in the area of recent emerging environment, water and disaster risk reduction technologies.

WHO CAN ATTEND?

Scientists, Faculty Members, Research associates and post graduate Research Scholars .This will be good opportunity for young faculty and post-doctoral fellows to learn and interact with the experts in the area. There is no registration fee. However, seats are limited hence will be filled on first come first serve basis.

Interested participants can register online by filling up the registration form, available online at <https://forms.gle/pEDTXy8buSfxFyAS7>

Or

QR code

*Last date of the registration
for the FDP is
12th July, 2020 till 2 pm.*

LIST OF SPEAKERS

1. **Prof. Jugal Kishore**
Head, Department of Community Medicine, Safdarjung Hospital, New Delhi
2. **Prof. HS Gaur,**
Dean, School of Basic Sciences and Research, and School of Agriculture, Sharda University, India,
3. **Prof. Bhupinder Singh**
Head, & Principal Scientist, Centre for Environment Science and Climate Resilient Agriculture, Indian Agricultural Research Institute, New Delhi
4. **Prof. Man Singh**
Director, Water Technology Centre, Indian Agricultural Research Institute, New Delhi
5. **Prof. Anil K Gupta**
Head, ECDRM Division, National Institute of Disaster Management, New Delhi
6. **Prof. Ravi Kant Singh**
Director Research, Amity University, Chhatisgarh
7. **Dr. Ravinder Kaur**
Director, Soil & Water Conservation, Indian Agricultural Research Institute, New Delhi
8. **Prof. D.K. Singh**
Principal Scientist, Water Technology Centre, ICAR- Indian Agricultural Research Institute, New Delhi
9. **Sh. Ashish Kumar Panda,** Faculty, ECDRM Division, National Institute of Disaster Management, New Delhi
10. **Dr Angana Sarkar**
Assistant Professor, National Institute of Technology, Rourkela.
11. **Dr Surajbhan Sevda**
Assistant Professor, National Institute of Technology, Warangal.

12. **Dr A S Mathuriya**
Associate Professor and Head, Life Sciences, School of Basic Sciences and Research, Sharda University, India
13. **Dr Jayesh M. Sonawane**
Senior Postdoctoral researcher, University of Toronto, Canada.
14. **Dr Suman, Assistant Professor**
Department of Environment Studies, School of Basic Sciences and Research, Sharda University, India
15. **Dr. Awdhesh Kumar**
Assistant Professor, Invertis University, Bareilly, UP
16. **Ms. Shilky**
Young Professional, National Institute of Disaster Management, New Delhi

CHIEF PATRONS

Shri. P. K. Gupta

Hon. Chancellor,
Sharda University

Shri. Y.K. Gupta

Hon. Pro-Chancellor,
Sharda University

Mr. Prashant Gupta

Executive Director,
Sharda University

PATRONS

Dr. Sibaram Khara

Vice - Chancellor,
Sharda University

Major General Sh, Manoj Kumar Bindal

Executive Director, NIDM,
New Delhi.

CHAIRMAN

Prof. Anil K Gupta

Head, ECDRM Division,

CO-COORDINATORS

Dr. Piyush K Gupta, Dr. Kanu Priya, Ms. Shilky

ORGANIZING COMMITTEE

**Prof. P K Singh, Dr. Soumya Pandit, Dr. Mohit Sahni, Dr. Munendra Singh
Dr. Sunny Dholpuria, Dr. Sharad Agarwal, Ms. Sweety, Ms. Rashi Chaudhary**

ABOUT NIDM

National Institute of Disaster Management (NIDM), Ministry of Home Affairs, Government of India, is a premium institute and a Statutory Body (under Disaster Management Act 2005) for training, research, documentation, awareness and human resources and capacity development in the field of disaster mitigation and management. The institute lays emphasis on multi- stakeholder interdisciplinary cross-sectoral approach for an efficient proactive continuum disaster risk management based on participatory integrated multi-risk management concept. It aims towards a disaster free / resilient India.

NIDM has been mandated by Sub-section 8 and 9, Section 42, Chapter 7 of Disaster Management Act 2005 to develop training modules and educational materials, undertake training, research, documentation and publication for capacity development and dissemination of knowledge / information related to disaster management, assist in formulation of policies, plans, strategies and frameworks for disaster risk reduction and resilience as well as promote awareness among different stakeholders for enhancing human capacity to avoid, prevent, mitigate, prepare, respond and recover efficiently in a proactive, holistic and integrated manner.

SHARDA UNIVERSITY

Sharda University has over the years become one of the leading centre of the education, research and innovation in Delhi NCR region established through an act of state legislature of Uttar Pradesh (14 Of 2009), Sharda University offers over 216 UGC recognized Programmes/ Plans in various disciplines. It is a part of the renowned Sharda group with operations in area like education, health care and IT.

Being the only global university in India that has seen students from 85+ countries experienced world class faculties and having 250+ global academic partnerships, Sharda University offers a truly international learning environment. That's why it says "The World is here, where are you?"
