Raipur : Complaints about the quality of fertilizer and seeds should not come: Chief Minister Shri Bhupesh Baghel

Raipur: The Chief Minister of Chhattisgarh, Shri Bhupesh Baghel, has instructed that no complaints should arise regarding the quality of fertilizer and seeds. He said that the government has taken all necessary precautions to ensure the availability of quality seeds and chemical fertilizer in the district. He said that the government has set a target of 11 lakh 30 thousand metric tons of chemical fertilizer and 18 thousand 470 quintals of seeds for the Kharif season. He said that so far, the government has distributed 6 lakh 9 thousand 621 metric tons of chemical fertilizer and 2 lakh 78 thousand 469 quintals of seeds in the districts.

Chief Minister Baghel informed that to ensure availability of better quality seeds and chemical fertilizer, the Agriculture Department has started preparations. He said that so far, 46 thousand 818 metric tonnes of fertilizer has been lifted by the farmers through the double lock centers and societies. Similarly, against the target of distribution of 11 lakh 30 thousand metric tons of chemical fertilizer and 18 thousand 470 quintals of seeds for the Kharif season, so far, 2 lakh 78 thousand 469 quintals of seeds have been stored in the districts. He said that the government has set a target of 11 lakh 30 thousand metric tons of chemical fertilizer and 18 thousand 470 quintals of seeds for the Kharif season, so far, 2 lakh 78 thousand 469 quintal seeds have been stored in the districts.

The Agriculture Minister Shri Ravindra Choubey informed that to ensure timely availability of chemical fertilizer and seeds, the Agriculture Department has started preparations for the upcoming Kharif season. In view of the demand of 9 lakh 7 thousand 800 quintal variety of seeds and fertilizer for kharif to farmers, along with adequate storage in the districts, distribution of sample tests of chemical fertilizers should be compulsorily done. He said that the government has set a target of 11 lakh 30 thousand metric tons of chemical fertilizer and 18 thousand 470 quintals of seeds for the Kharif season, so far, 2 lakh 78 thousand 469 quintals of seeds have been stored in the districts.
