Learning more about AI, the university hosts boot camps

Facilitating the understanding and execution of the University's objectives, Bangalore International Centre's faculty members in delivering curriculum, and training of students in different sectors.

UPES recently launched an exclusive mobile app to provide a tailor-made experience to help them make the right decisions. The app offers a range of features such as masterclasses by industry experts, implementation of state-of-the-art Learning Management System for online classes, and other services like exclusive webinars as well as a chance to speak to faculty members and career applicants to track their application, meet future batch mates, get access to mobile app. It offers a tailor-made experience to help them make the right decisions.

Apart from this, the University has also launched a mobile app for students to stay updated with the latest updates and news from the institution. The app features news and events, upcoming lectures and seminars, and a variety of other resources to help students stay informed.

UPES students have access to 3900 + courses available on Coursera and can optionally co-operate with the administration to understand their concerns and plan projects based on the same.
