April 10. "Rebooting education in this new reality is the need of the hour. It is our responsibility and purpose to safeguard the future of today's youth by not allowing the lockdown to affect their education," he said.

He said that the Centre, in the days to come, would micro manage things aimed at erecting more barricades and conducting more checks, among others.

"We would be taking the help of the Centre to further tighten the lockdown. I do not want students to lose their academic year. People are being appealed to not to gather in large numbers," he said.
