COVID-19 cases increase in Karnataka, Tele ICU task force to monitor patients

With 13 new cases coming up yesterday, Karnataka now has 260 COVID-19 positive cases, which includes 10 deaths and 71 recoveries. Four persons died yesterday in Bengaluru, Kalburgi and Vijayapura districts.

Medical Education Minister Dr. K Sudhakar inaugurated a Tele ICU Patients monitoring task force. Located in Health Commissioner’s office in Bengaluru, this state of the art ICU monitoring unit will monitor COVID 19 patients in ICUs across the state.

The team consisting of technology professionals and medical experts will work round the clock in shifts and receive real time details of Corona patients in ICU through e-Health Information and Communication System and recommend appropriate action to the doctors treating such patients across the state.
