The unprecedented outbreak of COVID-19 has impacted our daily lives and has taken a toll on various sections of our society. Currently, we have been providing relief on a priority/need basis. But given the extension of the lockdown period, our government has decided to provide a sum of Rs.30,000 to patients stranded in different parts of the country, in the form of a relief package. I urge our people to remain patient and be cooperative and considerate towards each other and especially towards our frontline workers who have been performing their duties with all sincerity.
