No. 875045 - 517

Dated: 05/05/2020

Subject:- Strengthening of Surveillance activities.

Some instances have come to the notice that at one or two places the covid positive
patient brought to hospital almost at the last moment and did not survive beyond few hours. Even
the fact of their being positive came to notice after the death. Obviously, they must have been sick in
their villages/town and other habitations and this fact never came into the notice of the any officer of
the district administration or health authorities. Had this fact of his being ill or infected brought to the
notice of the district administration by any person especially the Sarpanch, Patwari, Gram Sachiv,
Health Workers, Anganwari Worker or the Municipal Councillor etc. the others
who came into his contact could be traced and treated properly.

This requires strengthening of surveillance by not only health workers but also by
Panchayats and the ULB, WCD and Revenue Staff. You are, therefore, required to activite the field
machinery to closely monitor the surveillance of such persons on a daily basis in close coordination
with the health authorities. You are also required to motive and encourage the people to come
forward and bring all such incidents into the notice of the district administration immediately to avoid
further communication of the disease/virus.

Deputy Commissioner,
Sirsa.
