## **ABOUT THE INSTITUTE**

Mahatma Gandhi State Institute of Public Administration (MGSIPA), Chandigarh, Punjab is the Administrative Training Institute (ATI) of the Government of Punjab engaged in imparting quality training in various disciplines to officers and officials of the State Government and its Boards, Corporations, Central Government and other Organizations; as well as undertaking research studies including evaluation and consultancy in public administration, public policy and governance. The Institute is an ISO 9001:2015 and ISO 14001:2015 certified organization for its training activities and is spread over 12 acres in a pollution free institutional area in Sector 26, Chandigarh.

MGSIPA houses subject - specific Centres for Management Development, Study of Laws, Urban Governance, Sevottam, Secretariat Staff Training, Engineering Studies and RTI. MGSIPA has three Regional Centres located at Bathinda, Jalandhar and Patiala. The Institute also runs a Civil Services Coaching Centre.

MGSIPA organizes over 200 training programmes a year, which include Foundation Training Programmes, Induction Training Programmes, Trainer Development Programmes, In-Service Training Programmes and regular domain-specific three-day and five-day training programmes for various categories of employees of the Government.

## **ABOUT THE TRAINING PROGRAMME**

India, due to its physiographic and climatic conditions is one of the most disaster-prone areas of the world. Disaster management, at the individual and organizational level, deals with issues of planning, coordinating, communication and risk management. The institutional arrangement for disaster management provided by the Disaster Management Act, 2005 has provided constitutional sanction to prepare the disaster management plan at Gram Panchayat level to be consolidated at block and district level by the District Planning Committee (Article 243ZD of the Constitution). The Panchayati Raj Institution (PRI) members can play a vital role of leadership in Disaster management at all stages. Their close involvement will facilitate in preparation of community-based disaster management plans to achieve disaster risk reduction. Development of Village Disaster Management Plan (VDMP) is the most important ingredient in implementing Community Based Disaster Risk Management in any area. The programme seeks to develop para professionals and community skills in preparation of Disaster Management Plan.

Panchayats existed as self-governing institutions in ancient India which had distinct and well-defined functions. The institution of Panchayat represented not only the collective will, but also the collective wisdom of the entire rural community. The PRI is a statutory body elected by the local people through a well-defined democratic process with specific responsibilities and duties. The elected members are accountable to the people of the ward, rural community, block and the district. Keeping the above in view, the PRI, the representative body of the people, is the most appropriate institution from village to the district level in view of its proximity, universal coverage and enlisting people's participation on an

institutionalized basis. Their close involvement will go a long way in getting people prepared for countering natural disasters as well as involve them in all possible preventive and protective activities so that the impact of the disasters is mitigated and the people are able to save their lives and property. The PRIs can act as catalysts to social mobilization process and tap the traditional wisdom of the local communities to complement the modern practices in disaster mitigation efforts. Besides PRIs will also provide a base for integration of various concerns of the community with that of the NGOs and Community Based organizations (CBOs) which are engaged in various developmental activities at the grassroots level.

Mahatma Gandhi State Institute of Public Administration, Punjab in collaboration with National Institute of Disaster Management, Ministry of Home Affairs, Government of India has conducted an **Online Training on Integrating Disaster Management Plan with Gram Panchayat Development Plan from 9<sup>th</sup> to 11<sup>th</sup> June, 2021.**

## INAUGURAL SESSION

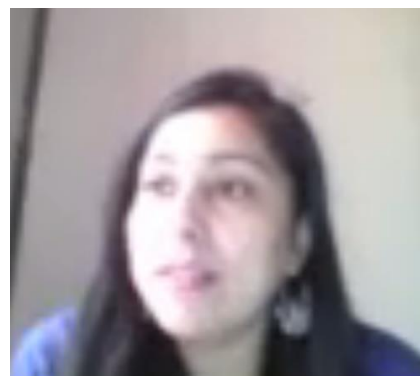

### Welcome Address

**Col. Dalbir Singh, General Manager (Training, Project & Consultancy), MGSIPA** unfolded the inaugural session extending his hearty greetings to all the esteemed dignitaries, key speakers, and participants of the training programme. He expressed great pleasure in collaboratively working with NIDM.

### Opening Remarks & Keynote Address

**Dr. Sushma Guleria, Assistant Professor, CCDRR Centre, NIDM** exposed us how the paradigm shift in approach towards management of disasters accentuates the need for risk reduction at the community level in India thus setting the tone and vision of the programme through her remarkable and enlightening keynote address.

## Inaugural Address

**Ms. Raminder Buttar, Additional Director, Department of Rural Development & Panchayat, Government of Punjab** formally inaugurated the training programme sharing how this initiative of collaboration will pave a long way for the participation of Panchayat Raj Institutions & involve communities also.

## **TECHNICAL SESSIONS**

Day 1 - 9<sup>th</sup> June, 2021

**Dr. Sushma Guleria, Assistant Professor, NIDM** briefed about the **Basics of Disaster Management**. She very comprehensively discussed about the basic concepts, impacts and categories of disasters in relevance to the current context of pandemic. She

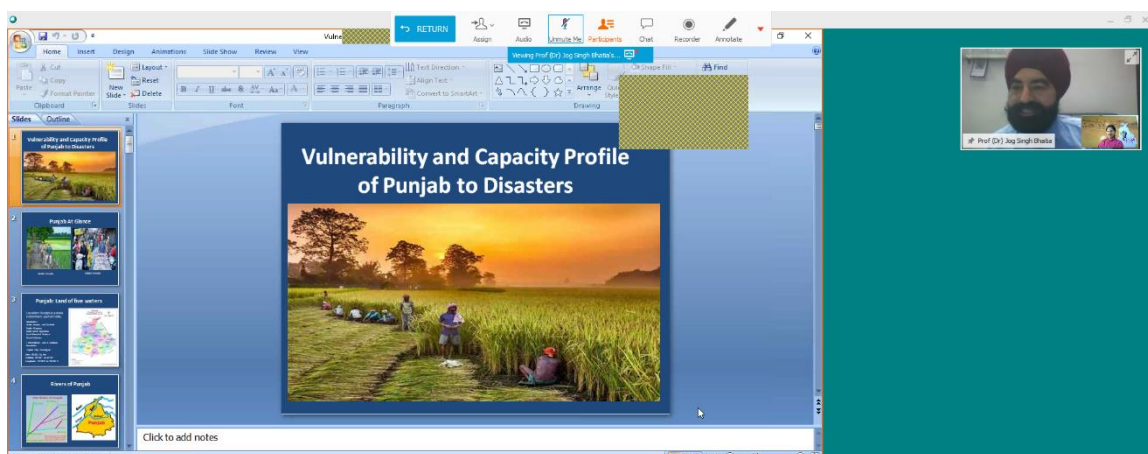

also discussed about the Disaster Management Mechanism & Structure in India considering various agencies and organizations involved thus elaborating the various pre-disaster and post-disaster activities.

In the concluding part of her presentation, Dr. Guleria talked on the relationship between disaster and development and the paradigm shift.

For the latter session, **Dr. Jog Bhatia, Director, Desh Bhagat University, Punjab** presented on the **Vulnerability & Capacity Profile of Punjab**. Dr. Bhatia sharing the geographical profile of Punjab discussed the hazard and vulnerability profile of Punjab. He talked on the flood, earthquake, and drought scenario in Punjab. Further, Dr. Bhatia brought the pest attacks faced by Punjab, the BT Cotton Attack, 2015 and the Locust Attack 2020 when we were amidst the Coronavirus Attack.

He discussed the vulnerability of Punjab towards expected 3rd wave of Covid-19 talking about the various Initiatives by Punjab Government to manage Pandemic.

After the presentations, we had a Q&A session in which the questions of the participants were very well addressed live by our key speakers, Dr Sushma Guleria and Dr. Jog Bhatia.

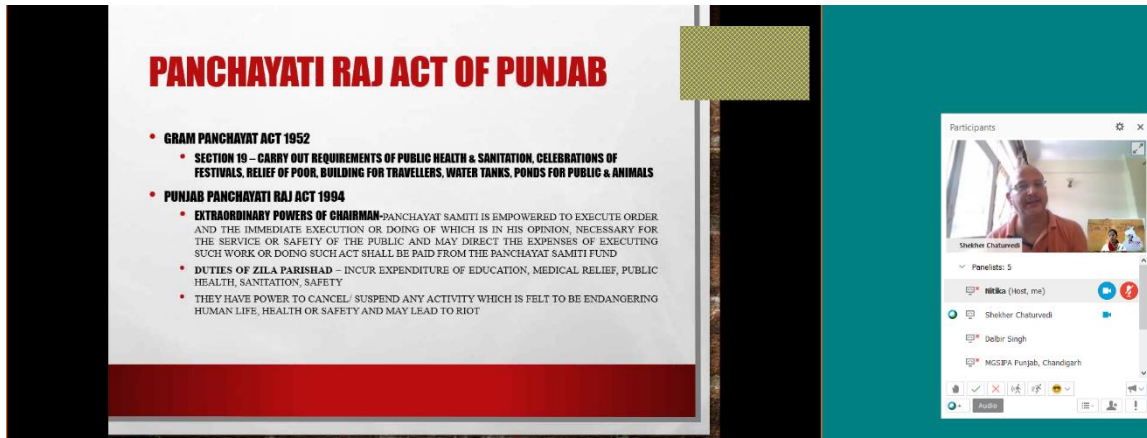

## Day 2 - 10<sup>th</sup> June, 2021

On the second day of the training programme, Dr. Sushma Guleria gave a quick recap of her past day session on Basic Concepts of Disaster Management. Also, she interacted with many of the participants and addressed their questions live onboard.

Later we had two sessions by the experts from NIDM. The former by **Mr. Shekher Chaturvedi** on the topic “**Role of Panchayati Raj Institutions in Disaster Management**”. Mr. Shekher while discussing about the local bodies shared various benefits of Panchayati Raj Institutions. He elaborated on the pre-disaster, during and post-disaster activities which can be intervened or taken up the Panchayati Raj Institutions.

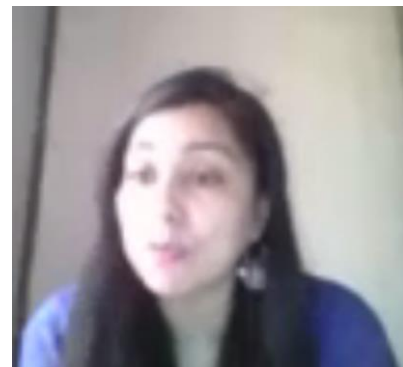

Further talking about the role of Panchayat in Planning, Capacity building and managing information, Mr. Shekher threw light on the PRI members attitude and what they need to know and do in case of emergency like situation in order to mitigate the effects of disaster and better respond to a disaster like event.

Later to this, **Dr. Sushma Guleria** delivered a remarkable presentation on the **Overview of Village Disaster Management Plan & formulation of VDMC & DMT's.**

Embarking her presentation, Dr. Guleria elaborated on Village Disaster Management Plan, its inclusions, objectives, framework and steps in making the plan. She further brought to limelight the process of hazard mapping, Hazard Analysis, Vulnerability

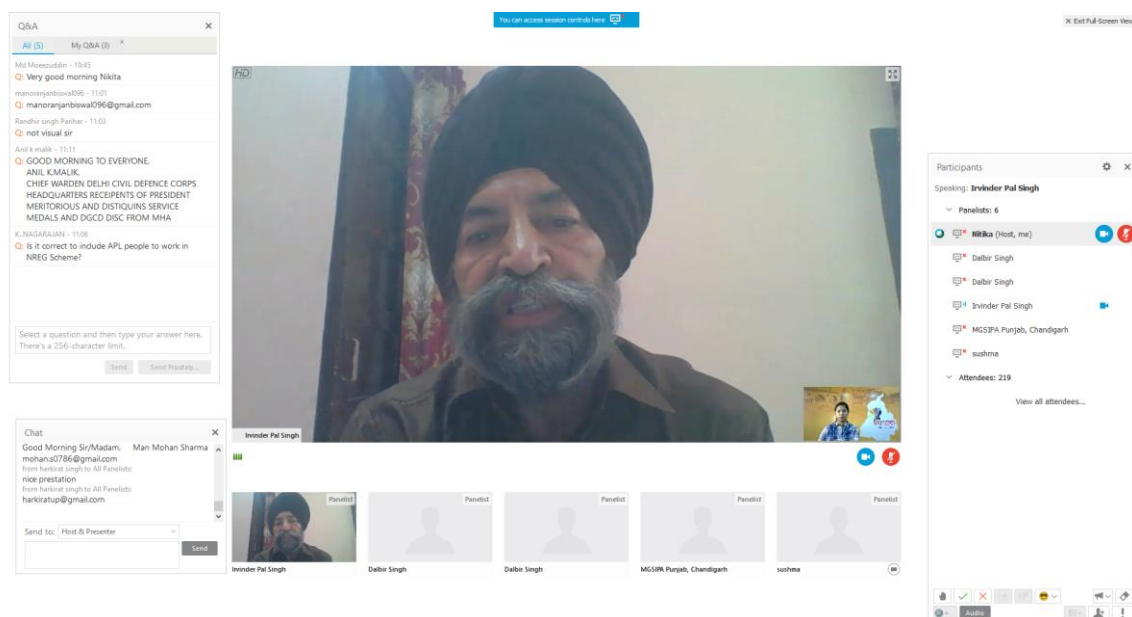

Analysis and Resource Analysis. In addition to this, Dr. Guleria shared a slide of the creation of Disaster Mitigation Fund by the 15<sup>th</sup> Finance Commission. Moving ahead, Dr. Sushma scrutinized the role of Disaster Management Teams talking about the Warning Team, Evacuation and Response, First aid, Sanitation, Shelter management,

Relief Management, Carcass disposal, Counselling, Damage Assessment and Reconstruction and Rehabilitation Teams.

With this note, Dr. Sushma Guleria concluded her presentation by interacting with the participants and clarifying their doubts and questions.

### Day 3 - 11<sup>th</sup> June, 2021

On the third and last day, we heard from two experts of the field. **Prof. Irvinder Singh** in his session discussed the **Current Status of Rural Development Flagship Schemes in Punjab** with his main emphasis on MGNREGA Scheme.

Through a detailed and comprehensive power point presentation on MGNREGA, Prof. Irvinder discussed about the background, core objectives and salient features of the scheme.

He enlightened about the key process of the works module, worker module and fund module. He further threw light on Job Card sharing about the job card application, registration, and issuance of the job card. Additionally, Prof. Irvinder talked about how the work demand and allocation of demand are met by the state government.

The screenshot shows a Cisco Webex Training interface. The main content is a presentation slide with the following text:

### Salient Features of the Act

- Employment will be given within 15 days of application for work, if it is not then daily unemployment allowance as per the Act, has to be paid. The liability of payment of unemployment allowance is of the States.
- Work should ordinarily be provided within 5 km radius of the village. In case work is provided beyond 5 kms, extra wages of 10% are payable to meet additional transportation and living expenses.
- Wages are to be paid according to piece rate. Disbursement of wages has to be done on weekly basis and not beyond a fortnight in any case
- At least one-third beneficiaries shall be women who have registered and requested work under the scheme.

On the right side, there is a chat window with the following messages:

## HAZARD

“Hazards are defined as physical phenomena that pose a threat to the people, structures or economic assets and which may cause a disaster.”

*Earthquake, floods, tsunami etc are all hazards and we can prevent them from becoming disasters*

Stay Protected from Corona Wear mask properly Wash Hands with Soap Maintain safe distance

What is the difference between an event, emergency and disaster?

Disasters are wide spread where as emergencies are comparatively smaller events which can be successfully responded with locally available resources.

## DISASTER

*An event, natural or human made sudden or progressive, which impacts with such severity that the affected community has to respond by taking exceptional measures!*

## Disaster Management Act 2005

Disaster means a **catastrophe, mishap, calamity or a grave occurrence** in any area arising out of **natural or man made causes**, or by accident or negligence, which results in substantial **loss of life and human suffering or damage** to, or destruction of, or **degradation of environment**, and is of such a nature, or magnitude as to be **beyond, the coping capacity of the affected community** of the affected area.

## Impact of Disasters

- Loss of lives
- Loss to Property and infrastructure
- Damage to livelihood
- Economic Loss
- Environmental Damage- Flora & Fauna
- Sociological & Psychological after effects

# Flood

- 40 million hectares are prone to flood
- 8 million hectares affected by flood every year
- Brahmaputra and Gangetic Basin are most flood prone areas
- North-west region of west flowing rivers – Krishna, Cavery and Mahanadi – are other flood prone areas

Stay Protected from Corona | Wear mask properly | Wash Hands with Soap | Maintain safe distance

# Cyclone

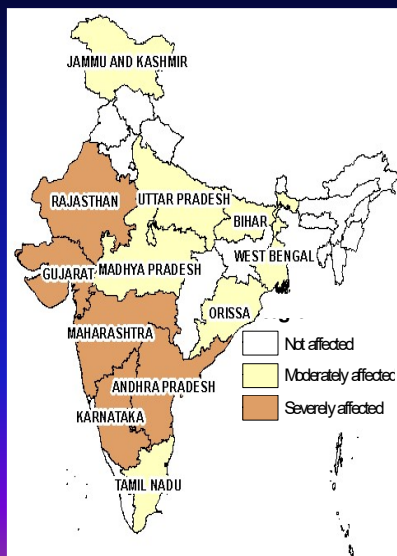

- Long coastline of 7500 km
- Pre-monsoon (May-June) and post-monsoon (Sept-Oct) cyclones
- Coastal districts of Orissa, Andhra Pradesh and Gujrat most prone to cyclone
- Most casualties caused by coastal inundation due to tidal waves, storm surges and torrential rains

Stay Protected from Corona | Wear mask properly | Wash Hands with Soap | Maintain safe distance

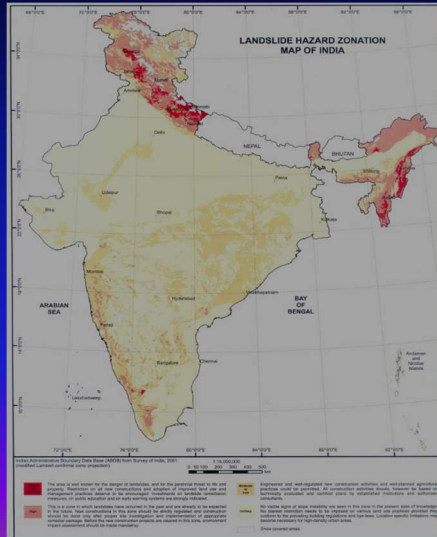

# Drought

- 68% of the net area sown in the country is prone to drought
- Out of this 33% is chronically drought prone, receiving rainfall less than 750mm per annum
- 35% drought prone that receive rainfall between 750-1125 mm per annum

Stay Protected from Corona | Wear mask properly | Wash Hands with Soap | Maintain safe distance

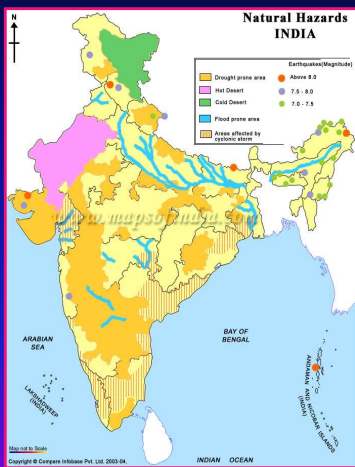

# landslide

- About 25% of the total geographical area of India is prone to landslides.
- Entire Himalayas, North eastern region, western ghats are perennially affected by landslides

## VULNERABILITY

- "It is the extent to which a community, structure, service or geographic area is likely to be damaged or disrupted by the impact of a particular hazard on account of its nature and proximity to hazardous terrain or a disaster prone area."
- *It is the likely extent of damage due to a hazard.*

Stay Protected from Corona | Wear mask properly | Wash Hands with Soap | Maintain safe distance

## Types of Vulnerability

### Physical Vulnerability

- Depends on physical location of people and elements at risk
- Technical capacity of Buildings, structures, infrastructure
- Varies according to construction techniques, materials used and location.

Stay Protected from Corona | Wear mask properly | Wash Hands with Soap | Maintain safe distance

## Economic Vulnerability

- Poor people
- Livelihood of the people

## Social Vulnerability

- Women
- Children
- Old aged people
- Physically and mentally challenged
- Those dependent on critical facilities

## Environmental Vulnerability

- Flora
- Fauna-Biodiversity-Ecosystem

# Capacity

Capacity is the resources of individuals, households and communities to cope with a threat or resist the impact of a hazard

$$\text{Capacity} = 1/\text{Vulnerability}$$

Fire stations, developed health infrastructure, institutional approach, local knowledge, good level of preparedness will all prevent hazards from becoming disasters.

## Prevention

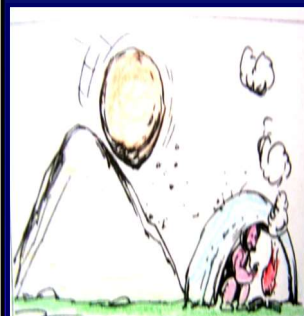

Activities to avoid the adverse impact of hazards and means to check from turning into disasters.

**Examples:** avoiding construction in seismically active areas, landslide prone areas and flood planes

## MITIGATION

Measures taken in advance of a disaster aimed at reducing its impact on society and the environment

- Learning from the past disaster
- Incorporating the learning in present scenario
- Building back better to **reduce the impact of future disasters**

## Mitigation Measures

### Structural Measures

- Multihazard resistant buildings
- Shelters
- Retrofitting
- Modernizing **Early Warning System**

### Non structural measures

- Awareness generation
- Training and Capacity building
- Policy and regulations
- **M**ock **D**rills and demos
- Effective dissemination of early warning
- Development of state, district village plans
- Building byelaws revision

## RELIEF

An act of helping or alleviating the conditions of persons who are suffering from the effects of disaster/calamity

The relief plan provides provisions of assistance or intervention during / immediately after a disaster to meet the basic needs of affected people

Stay Protected from Corona Wear mask properly Wash Hands with Soap Maintain safe distance

## Minimum Standards of Relief

**Section 12.** The National Authority recommends guidelines for minimum standards of relief to be provided to persons affected by disaster, which include-

- (i) minimum requirements to be provided in the relief camps in relation to shelter, food, drinking water, medical cover and sanitation;
- (ii) special provisions to be made for widows and orphans;
- (iii) ex gratia assistance on account of loss of life as also assistance on account of damage to houses and for restoration of means of livelihood;
- (iv) such other relief as may be necessary.

Stay Protected from Corona    Wear mask properly    Wash Hands with Soap    Maintain safe distance

## RECOVERY

### Reconstruction

### Rehabilitation

- Include long term measures e.g. houses, livelihoods, infrastructures etc.
- Capital intensive, needs careful planning and community participation
- Return humans and built infrastructure to minimum operational/living standards- *initially temporary in nature*
- Provides good opportunity to plan developmental activities which are more robust and resilient

Stay Protected from Corona    Wear mask properly    Wash Hands with Soap    Maintain safe distance

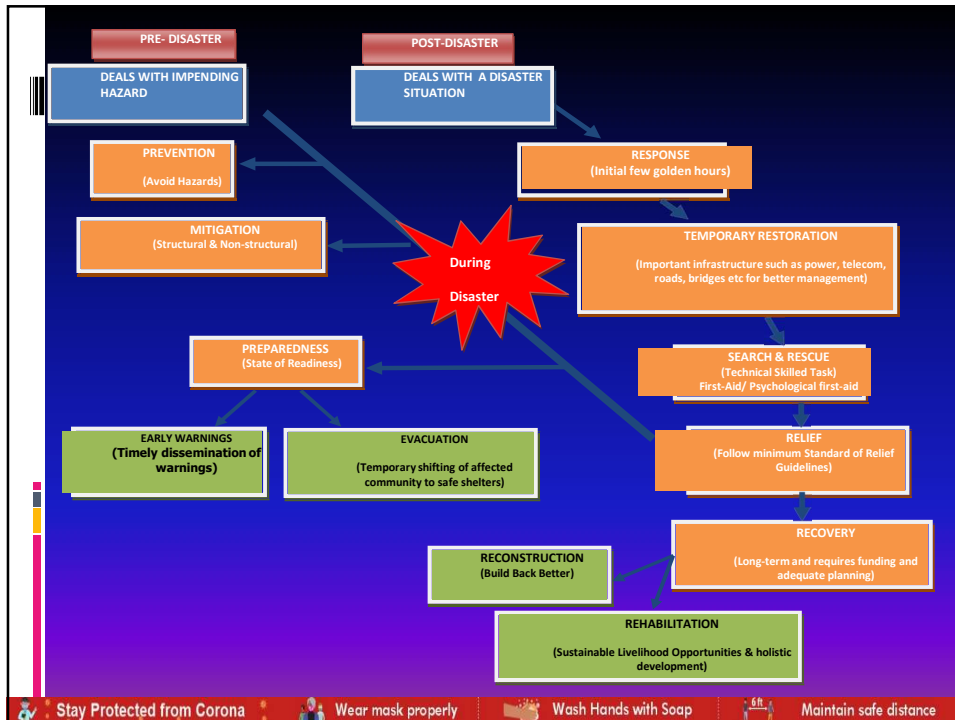

## Reconstruction

Incorporate and Integrate mitigation measures to **"Build Back Better"**

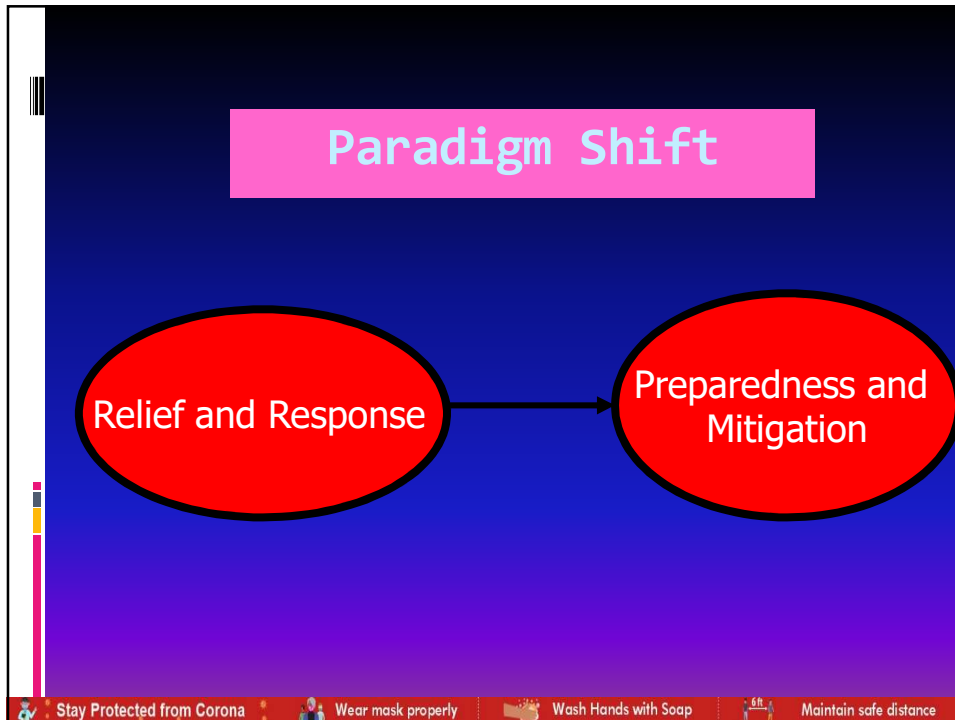

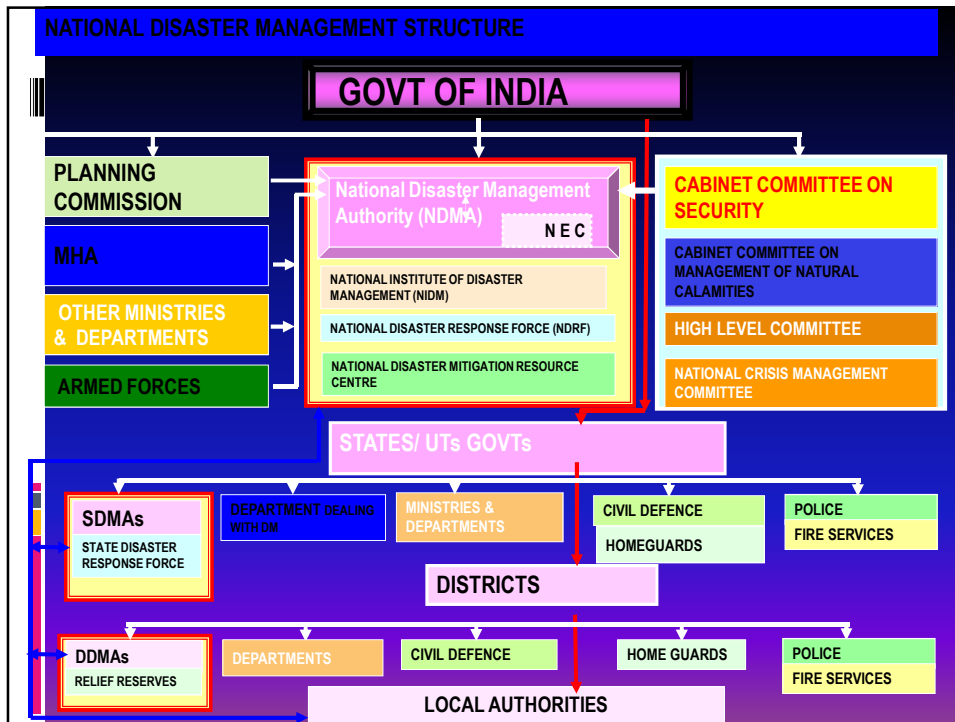

## Rehabilitation

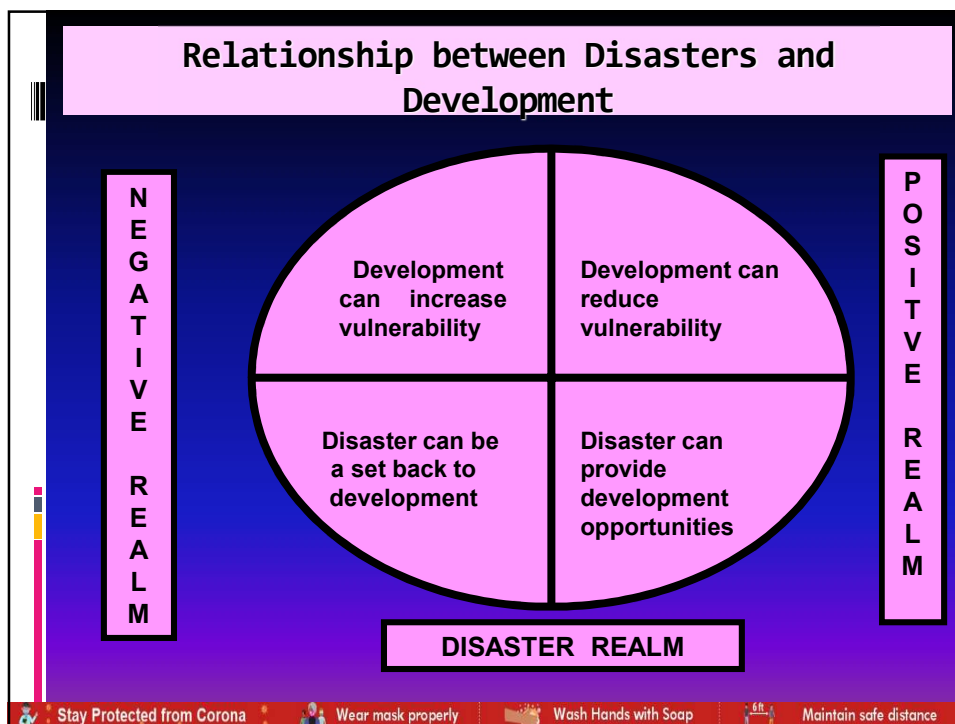

Restoration for the affected community via providing financial, psychological and livelihood support, bringing economical stability back to normal living conditions

## Sendai Framework 2015

The present framework will apply to the risk of small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters, caused by natural or manmade hazards as well as related environmental, technological and biological hazards and risks. It aims to guide the multi-hazard management of disaster risk in development at all levels as well as within and across all sectors

The substantial reduction of disaster risk and losses in **lives, livelihoods** and **health** and in the economic, physical, social, cultural and environmental assets of persons, businesses, communities and countries.

## The Four Priorities for Action

- **Priority 1. Understanding disaster risk**

Disaster risk management should be based on an understanding of disaster risk in all its dimensions of vulnerability, capacity, exposure of persons and assets, hazard characteristics and the environment. Such knowledge can be used for risk assessment, prevention, mitigation, preparedness and response.

- **Priority 2. Strengthening disaster risk governance to manage disaster risk**

Disaster risk governance at the national, regional and global levels is very important for prevention, mitigation, preparedness, response, recovery, and rehabilitation. It fosters collaboration and partnership.

 Stay Protected from Corona  Wear mask properly  Wash Hands with Soap  Maintain safe distance

- **Priority 3. Investing in disaster risk reduction for resilience**

Public and private investment in disaster risk prevention and reduction through structural and non-structural measures are essential to enhance the economic, social, health and cultural resilience of persons, communities, countries and their assets, as well as the environment.

- **Priority 4. Enhancing disaster preparedness for effective response and to “Build Back Better” in recovery, rehabilitation and reconstruction**

The growth of disaster risk means there is a need to strengthen disaster preparedness for response, take action in anticipation of events, and ensure capacities are in place for effective response and recovery at all levels. The recovery, rehabilitation and reconstruction phase is a critical opportunity to build back better, including through integrating disaster risk reduction into development measures.

## The Seven Global Targets

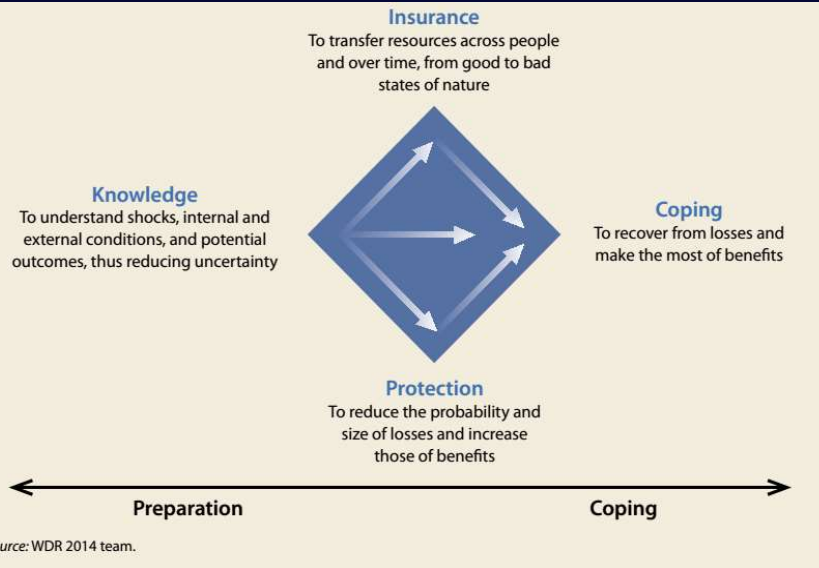

- (a) Substantially reduce global disaster mortality by 2030, aiming to lower average per 100,000 global mortality rate in the decade 2020-2030 compared to the period 2005-2015.
  
- (b) Substantially reduce the number of affected people globally by 2030, aiming to lower average global figure per 100,000 in the decade 2020 -2030 compared to the period 2005-2015.
  
- 
- (c) Reduce direct disaster economic loss in relation to global gross domestic product (GDP) by 2030.
  
- 
- (d) Substantially reduce disaster damage to critical infrastructure and disruption of basic services, among them health and educational facilities, including through developing their resilience by 2030.

 Stay Protected from Corona  Wear mask properly  Wash Hands with Soap  6ft 6in Maintain safe distance

- (e) Substantially increase the number of countries with national and local disaster risk reduction strategies by 2020.
  
- (f) Substantially enhance international cooperation to developing countries through adequate and sustainable support to complement their national actions for implementation of this Framework by 2030.
  
- (g) Substantially increase the availability of and access to multi-hazard early warning systems and disaster risk information and assessments to the people by 2030.

## Things to be kept in mind....

1. *Caution people against assuming that you will solve the problems but point out that the **community has the potential resources to solve its own problems.** All it needs is their will and some management skills which you can help them get.*
2. ***Involve people in the process of identifying their needs and problems as well as in the choice of the solutions.** These solutions should favour the use of local resources*

Stay Protected from Corona Wear mask properly Wash Hands with Soap Maintain safe distance

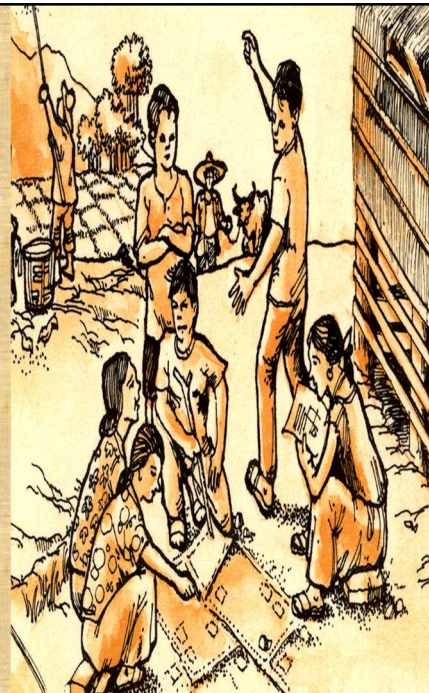

WHAT IS VILLAGE DISASTER  
DISASTER MANAGEMENT  
PLAN

Stay Protected from Corona Wear mask properly Wash Hands with Soap Maintain safe distance

## What is VDMP?

- List of activities which a village agrees to follow to **prevent** loss of life, livelihoods and property
- **Actions** to be taken by the individuals in the community to prevent hazards from becoming disasters
- Effective **coordination** of human and material resources which may facilitate a better response

Stay Protected from Corona Wear mask properly Wash Hands with Soap Maintain safe distance

## VDMP must have

- Clear objectives
- Simple
- Logical sequence of activities
- Clearly defined roles and responsibilities
- Standard against which actual performance can be measured and reviewed
- Integrate its activities, tasks and responsibilities

Stay Protected from Corona Wear mask properly Wash Hands with Soap Maintain safe distance

## Framework for VDMP

- Rapport Building
- Awareness Generation
- Development of Plan
- Constitution of DMC and DMTs
- Mock Drills
- Link it with family Disaster Management Plan.

Stay Protected from Corona Wear mask properly Wash Hands with Soap Maintain safe distance

## Steps in making VDMP

1. Situational Profile
2. Hazard, Vulnerability ,Capacity and Risk Analysis
3. Response Plan
  - *SOP of DMC and DMTs in during and post disaster phase*
4. Mitigation and Preparedness Plan
  - *SOPs, Evacuation Routes, Skill Training and Mock Drill*
5. Financial Mechanism
6. Contact details, Updation mechanism and Family Disaster Management Plan.

## HAZARD MAPPING

- visual representation
- rough spatial overview
- sketches of the area, specific locations vulnerable to various hazards
- hit by disasters in the past
- share experiences on large sheets
- 

 Stay Protected from Corona  Wear mask properly  Wash Hands with Soap  Maintain safe distance

## Step 2: Hazard Mapping

## Historic Profile

- Tool used to gather information about past
- helps get insight in past hazards
- Helps find changes in the nature, intensity, behaviour
- helps understand the present situation
- establish link between hazards and vulnerabilities
- **Story telling - identify capacity gaps**

## Seasonal Calendar

- making a calendar showing different events
- time of occurrence of hazards throughout the annual cycle
- identify the periods of stress
- prepare for specific stress in normal times

## 15<sup>th</sup> Finance Commission ( Article 280, 1.4. 2020 onwards)

The Commission recommended the creation of funds for Disaster Mitigation along with Disaster Response, which will now together be called as "National Disaster Risk Management Fund (NDRMF) and State Disaster Risk Management Fund (SDRMF)

**The allocated grants for NDRMF is Rs. 12,390 crore for 20-21**

**Recommended grants for SDRMF is Rs. 28, 983 crore for 20-21**

**Allocations for SDRMF will be further sub-divided into:**

- Response and Relief- 40%
- Recovery and Reconstruction- 30%
- Mitigation-20%
- Capacity Building-10%

# MAHATMA GANDHI NREGA

## Mahatma Gandhi NREGA

- The Mahatma Gandhi National Rural Employment Guarantee Act 2005 (MGNREGA or Act) was notified on September 7, 2005
- MGNREGA is a social security legislation with a right based framework.
- It aims to enhance livelihood security in rural areas by providing at least 100 days of guaranteed wage employment to every rural household whose adult members volunteer to do unskilled manual work.

## The core Objectives of the Scheme are:-

- Providing not less than one hundred days of unskilled manual work as a guaranteed employment in financial year to every household in rural areas as per demand, resulting in creation of productive assets of prescribed quality & durability.
- Strengthening the livelihood base of the poor
- Proactively ensuring social inclusion
- Strengthening Panchayati raj institutions

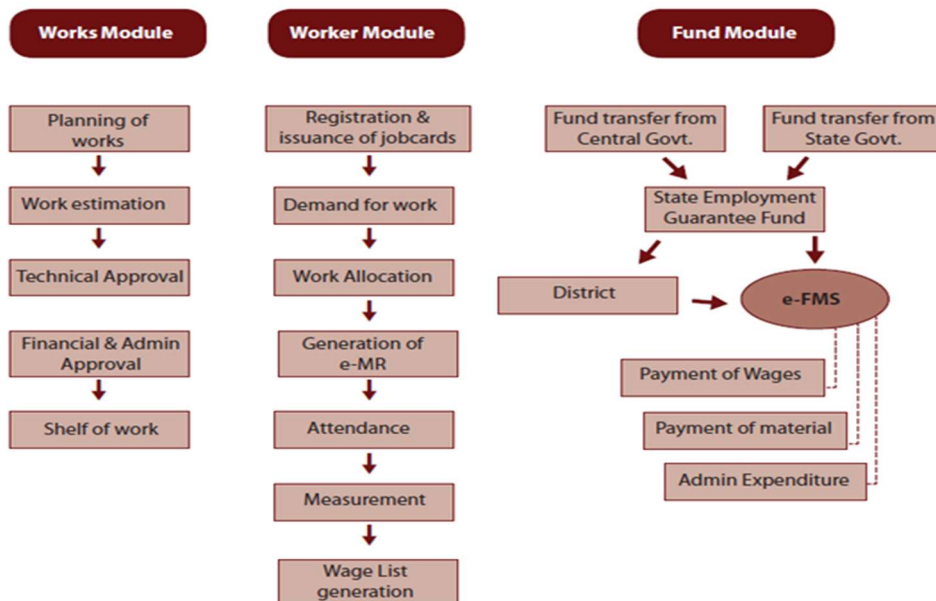

## Salient Features of the Act

- ◉ Employment will be given within 15 days of application for work, if it is not then daily unemployment allowance as per the Act, has to be paid. The liability of payment of unemployment allowance is of the States.
- ◉ Work should ordinarily be provided within 5 km radius of the village. In case work is provided beyond 5 kms, extra wages of 10% are payable to meet additional transportation and living expenses.
- ◉ Wages are to be paid according to piece rate. Disbursement of wages has to be done on weekly basis and not beyond a fortnight in any case
- ◉ At least one-third beneficiaries shall be women who have registered and requested work under the scheme.

## Salient Features of the Act

- ◉ The shelf of projects for a village will be recommended by the gram sabha and approved by the Zila Panchayat.
- ◉ At least 50% of works will be allotted to Gram Panchayats for execution.
- ◉ Permissible works predominantly include NRM Works (65%) & Agriculture & Allied (60%).
- ◉ A 60:40 wage and material ratio has to be maintained at district level. No contractors and machinery is allowed.
- ◉ The Central Government bears the 100 percent wage cost of unskilled manual labour and 75 percent of the material cost including the wages of skilled and semi skilled workers.
- ◉ Social Audit has to be done by the Gram Sabha. All accounts and records relating to the Scheme should be available for public.

## KEY PROCESS

## Job Card

- Every household whose adult members who work under MGNREGS or have shown their willingness to work, **is entitled for a Job Card.**
- Job Card is a **key document; mirror** of the programme implementation.
- Records all the **workers' entitlements** under MGNREGS.
- Contains **all information** of the household, of all the willing members entitled under MGNREGS, **latest details** of work applied for and received, wages paid.
- All the Job Cards **must remain** in the **custody of the workers** concerned, **at all times**. No other person, or functionaries, or Panchayati Raj Institutions shall possess the Job Cards.
- JC found in the possession of any Panchayat or Mahatma Gandhi NREGA functionary, without a valid reason, will be considered as a **punishable offence.**
- The Job Cards needs to be **regularly updated.**

## **Online Training on Integrating Disaster Management Plan with Gram Panchayat Development Plan (09-11 June 2021, MGSPIPA, Punjab)**

### **About the Course**

India, due to its physiographic and climatic conditions is one of the most disaster prone areas of the world. Disaster management, at the individual and organizational level, deals with issues of planning, coordinating, communication and risk management. The institutional arrangement for disaster management provided by the Disaster Management Act, 2005 has provided constitutional sanction to prepare the disaster management plan at Gram Panachayat level to be consolidated at block and district level by the District Planning Committee (Article 243ZD of the Constitution). The Panchayati Raj Institution (PRI) members can play a vital role of leadership in Disaster management at all stages. Their close involvement will facilitate in preparation of community based disaster management plans to achieve disaster risk reduction. Development of Village Disaster Management Plan (VDMP) is the most important ingredient in implementing Community Based Disaster Risk Management in any area. The programme seeks to develop para professionals and community skills in preparation of Disaster Management Plan.

### **Objectives:**

- To sensitize the participants on Disaster Management (DM) Act 2005
- To familiarize the participants with concepts, components and preparation of DM Plan and Village DM Plan
- To discuss the components of DM Plans tools and techniques of PRA and its role in preparing the situation analysis.
- To orient the participants to integrate Disaster management plan with Gram Panchayat Development Plan
- Exposure of participants to the roles and responsibilities of various stakeholders in integration of DM & GPDP

### **Contents:**
