## **ABOUT THE ORGANISATION**

Co-recipient of the 1997 Nobel Peace Prize, Humanity & Inclusion (the new name of Handicap International) is a 38-year-old independent and impartial organization working in situations of poverty and exclusion, conflict and disaster.

We work alongside people with disabilities and vulnerable populations, taking action and bearing witness in order to respond to their essential needs, improve their living conditions and promote respect for their dignity and fundamental rights.

With local partners, we run programs in health and rehabilitation and social and economic integration. We work with local authorities to clear landmines and other war debris and to prevent mine-related accidents through education. We respond quickly and effectively to natural and civil disasters in order to limit serious and permanent injuries and to assist survivors' recovery and reintegration. We advocate for the universal recognition of the rights of people with disabilities through national planning and advocacy.

Humanity & Inclusion is the world's most comprehensive mine action charity. The heart of this action is victim assistance—this was our beginning in 1982—but teams also prevent injuries through weapons and landmine clearance, risk education activities, stockpile management, and advocacy to ban landmines and cluster bombs.

Outraged by the injustice faced by people with disabilities and vulnerable populations, we aspire to a world of solidarity and inclusion, enriched by our differences, where everyone can live in dignity.

Humanity & Inclusion is an independent and impartial aid organization working in situations of poverty and exclusion, conflict and disaster. We work alongside people with disabilities and vulnerable populations, taking action and bearing witness in order to respond to their essential needs, improve their living conditions and promote respect for their dignity and fundamental rights.

## **ABOUT THE TRAINING PROGRAMME**

Handicap International and National Institute of Disaster Management, Ministry of Home Affairs, Govt. of India, organized 3-Days Online Training Program (COT) on Child Centric Disaster Risk Reduction (CCDRR)(COT CCDRR), to be held from 20<sup>th</sup> to 22<sup>nd</sup>Jan 2022, from 11.00A.M to 1.00 P.M on Cisco Webex Platform. National Institute of Disaster Management (NIDM) South Campus, Ministry of Home Affairs, and Government of India is a premier institute and a Statutory Body (under Disaster Management Act 2005) for training, research, documentation, awareness and human resources and capacity development in the field of disaster mitigation and management in India and in the region.

In any disasters, Man-made or Natural, women and children are the ones worst hit. Recently, because of extreme tempering with the nature, the world has faced innumerable disasters like floods, cyclones, wars, earthquakes, and diseases. Disasters threaten the lives, constitutional rights and needs of the children worldwide. In past three decades India has faced devastating disasters such as Latur Earthquake (1993), Odisha Super Cyclone (1999), Bhuj Earthquake (2001), Indian Tsunami (2004), Jammu & Kashmir Earthquake (2005), Urban Flood in Mumbai (2005), Bihar Floods (2008), Uttarakhand Floods (2013), Cyclone Phailin (2013), Srinagar Floods (2014), Chennai Floods (2015), Kerala Floods (2018), and Cyclone Fani (2019), Taukte and Yass. Droughts hit Andhra Pradesh, Gujarat, Karnataka, Maharashtra, Rajasthan, Tamil-Nadu, Telangana, Bihar, Jharkhand, and parts of North-East are also drought prone. These states are home to nearly 500 million people, almost 40% of the country's population. Droughts are slow onset disasters, adversely affecting women and children. Karnataka (16 districts) and Andhra Pradesh (4 districts)

Experienced at least 10 droughts between 2001-2015. During these emergencies, children are especially vulnerable to diseases, malnutrition, and violence and trafficking. Measles, diarrhoea, acute respiratory infections, malaria, and malnutrition are the major killers of children during humanitarian crises. In future, vulnerability of children is expected to increase as the intensity and frequency of natural disasters rises. Recent COVID Pandemic has added to the woes of the children, with many of them becoming orphans or destitute, with no one to take care of them. World has now to be prepared for all calamities and uncertainties. Disaster preparedness holds the key to reduction of risk, especially for women.

The United Nations Children`s Fund (UNICEF) and The United Nations International Strategy for Disaster Risk Reduction (UNISDR), December 2011, Children and disasters: Building resilience through education, “Integration of disaster risk reduction into education is a long-term process which aims to ensure that knowledge about hazards, risks and appropriate safety behaviour is deeply embedded within communities, with children as “agents of change”. To achieve this there is a need to promote knowledge of disaster management and behavioural change about disaster risks through both formal and non-formal education, while at the same time reinforcing partnerships and encouraging cooperation on disaster risk reduction policies and practices. National Platforms, through Ministries of Education, should embrace as part of their work plans the inclusion of disaster risk reduction knowledge in relevant sections of school curricula at all levels and the use of other formal and informal channels to reach youth and children with information.

Keeping in view the increasing vulnerability of children from climate change and natural disasters, National Institute of Disaster Management (NIDM), Ministry of Home Affairs, Government of India has established “Child Centric Disaster Risk Reduction (CCDRR) Centre” to mainstream child centric DRR activities

through Training, Research, Advocacy and Consultancy, and has organised, along with the Handicap International, 3 Days Online Content Orientation Training (COT)

Programme on Child Centric Disaster Risk Reduction (CCDRR)I which is intended for Trainers/ Teachers/Research Scholars/Students of State level and Central Universities, Colleges, Schools; SIRDs, SDMAs, DDMAAs and Non-Government Organization. Also targets on Trainers in Health, Education, Women and Child welfare, Revenue and Panchayat Raj and Rural Development Department, Administrative Training Institutions and Civil Society Trainers to help to build their knowledge, skills, and perspectives towards child centric disaster risk reduction. This will help officials to understand and prepare for risk informed planning, sectoral readiness, and preparedness for emergencies so as children are not deprived of basic amenities.

This 3 Days Training (COT) Programme on Child Centric Disaster Risk Reduction (CCDRR)is intended for Trainers/ Teachers/ Professors/ Faculties of State level Universities, Colleges, Schools, Administrative Training Institutions, and Civil Society trainers to help build their knowledge, skills, and perspectives towards child centric disaster risk reduction. This will help officials understand and prepare for risk informed planning, sectoral readiness, and preparedness for emergencies so as children are not deprived of basic amenities.

### **Objectives**

**The program is designed with the following objectives:**

- Explaining the Disaster Management Mechanism in India

# INAUGURAL SESSION

## Welcome Address

**Ms. Annie Hans**, DRR & Inclusion, Handicap International Delivered the Welcome Address. Welcomed all the dignitaries and explained about the programme and the working of the HI.

Ms. Annie Hans high lightened many issues regarding children at the time of disaster especially disabled children, and the need for their protection.

## Opening Remarks

**Prof. Santosh Kumar, Prof & Head, CCDRR, NIDM**, in his opening remarks, Prof. Santosh

Kumar, Professor & HOD, Governance Inclusive Disaster Risk Reduction, Child Centric Disaster Risk Reduction, expressed his happiness in Collaborating with University of Jammu. The training programs of NIDM, CCDRR, are aimed to reduce the vulnerability of children to disasters, to a minimum. The children are a homogenous group and heterogeneous too based on their SES,

geographical region of residence, and other factors too. Past experiences should guide current actions. The current COVID Pandemic has caught the world off guard. If any calamity or disaster happens now (last two years has seen 4 cyclones) it has to be dealt with in the broad framework of COVID Appropriate Behaviours. The needs of the children, their safety and security should receive utmost importance in such disasters, in view of the COVID Behavioral Response. Communities need to be empowered to build the capacities of

children, that's why educational institutions are important link to the awareness and risk reduction of both parents and children. Children themselves need to be heard

## Inaugural Address

**Ms. Aditi Ghosh, Country Manager**, Handicap International Delivered the Inaugural Address

Talking about the COVID she said that there are patterns which need to be understood and steps need to be taken to mitigate the crisis. He further said that since the disasters cannot be avoided, we need to be prepared and become resilient to minimize the impact. These three days training, he hoped, should be aimed at developing techniques for anticipating, minimizing, absorbing,

recovering and bouncing back, especially keeping the children in mind. Also expressed her desire to join India Universities and Institutions Network for Disaster Risk Reduction (IUINDRR-NIDM), Agenda 6 from Prime Minister's 10-point agenda on DRR.

# TECHNICAL SESSIONS

## How to wear Face-cover/mask properly?

Tie the top string first while wearing it

Ensure mouth and nose are fully covered

Ensure you do not have any difficulty in breathing while face-cover/mask is on

Do not touch the front of your face-cover/mask with hands

Untie bottom string first while taking it off

## Hazard Profile of India

- ▶ India is the **7<sup>th</sup> largest country** by area, the **2<sup>nd</sup> most populous country** with over 1.37 billion people and due to its physiographic and climatic conditions is one of the **most disaster prone areas** of the World.
- ▶ Nearly **59% of the landmass is prone to earthquakes** of moderate to very high intensity.
- ▶ More than 40 million hectares (**12% land**) is **prone to floods** and river erosion.
- ▶ Nearly 7,500 km long coastline, close to **5,700 km is prone to cyclones and tsunamis**.

# Hazard Profile of India

- ▶ Nearly **68%** of the cultivable area is **vulnerable to drought**.
- ▶ Large tracts in hilly regions are at risk from **landslides** and some are prone to **snow avalanches**.
- ▶ Further, the vulnerability to **Chemical, Biological, Radiological and Nuclear (CBRN)** disasters and terrorism has also increased manifold.

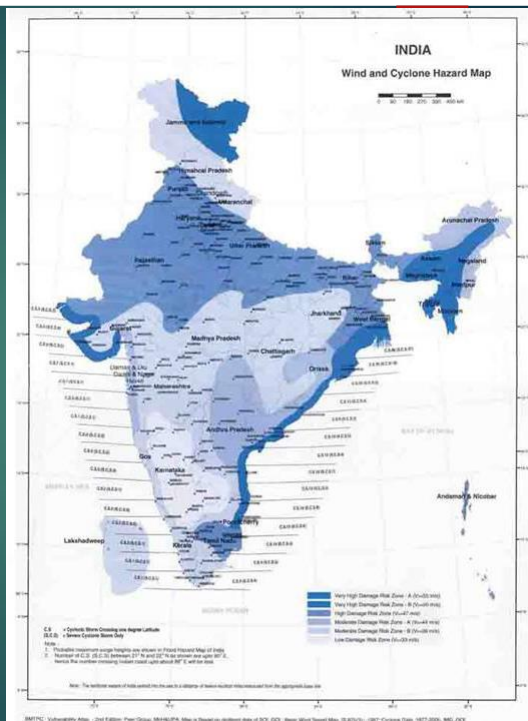

## Tropical Cyclones

Total Coastline – **7,516 kms**

Vulnerable to Cyclones & Tsunamis – **5,700 kms**

### High Vulnerability States

- Odisha
- Andhra Pradesh
- West Bengal
- Tamil Nadu
- Gujarat
- Kerala
- Puducherry

## Tropical Cyclones

- ▶ India's long coastline of nearly **7,500 km** is **vulnerable** to about **10% of the World's tropical cyclones**.
- ▶ Cyclones occur frequently on both the west coast in the **Arabian Sea** and the east coast in the **Bay of Bengal**.
- ▶ More **cyclones occur in the Bay of Bengal** than in the Arabian Sea and the **ratio is approximately 4:1**.
- ▶ On an average, **5 to 6 tropical cyclones** form every year, of which 2 or 3 could be severe.

## Landslides

- ▶ Resulting from **natural phenomena** (heavy rainfall, snowmelt, gravity, volcanic eruptions, earthquakes) or **man-made actions** (deforestation, construction, blasting etc.)
- ▶ Landslides **occur in the hilly regions** of India such as the Himalaya, North-East India, the Nilgiris, Eastern Ghats and Western Ghats.
- ▶ It is estimated that **30% of the World's landslides** occur in the Himalayan ranges. Landslides are also common in Western Ghat.

## Storm Surge

- ▶ Storm surge, a **coastal phenomenon**, is the inherent destructive aspect of cyclones.
- ▶ It is an **abnormal rise of water** generated by a storm, over and above the predicted astronomical tides.

## Storm Surge

- ▶ The rise in water level **can cause extreme flooding** when storm surge coincides with normal high tide, reaching up to 6 metres or more in some cases.
- ▶ Most casualties during tropical cyclones occur as the result of storm surges.

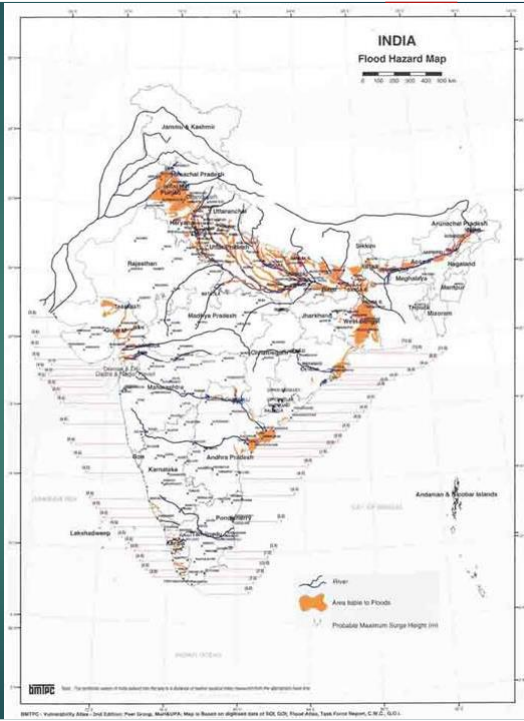

# Floods

Vulnerability – 12% of total landmass

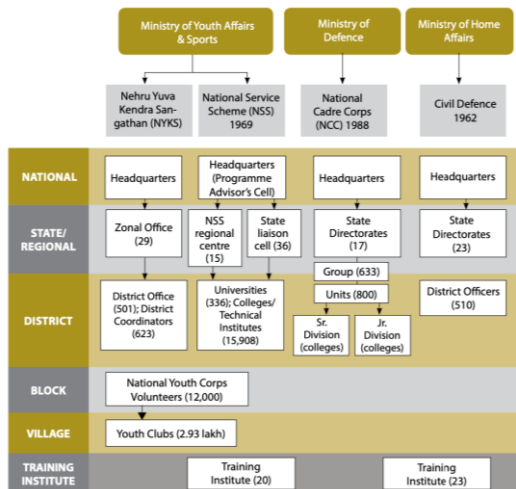

Most of the States in the country are vulnerable to floods in varying degree

## High Vulnerability States

- Assam
- Bihar
- Andhra Pradesh
- Odisha
- West Bengal
- Gujarat
- Maharashtra
- Karnataka
- Gujarat
- Uttar Pradesh
- Uttarakhand
- Himachal Pradesh
